

STATEMENT OF ADDITIONAL INFORMATION  
CAMBRIA ETF TRUST

Dhandho Junoon ETF (JUNE)

2321 Rosecrans Avenue, Suite 3225, El Segundo, CA 90245

PHONE: (310) 683-5500

October 12, 2016, as revised April 12, 2017

This SAI describes additional information related to the Fund. The Fund is passively-managed by Cambria, meaning that it is designed to track the performance of an underlying index. SEI Investments Distribution Co. serves as the distributor for the Fund.

Shares of the Fund are listed and traded on the NYSE Arca, Inc.

This SAI is not a prospectus. It should be read in conjunction with the Fund's Prospectus, dated October 12, 2016, as revised from time to time, which incorporates this SAI by reference.

Capitalized terms used herein that are not defined have the same meaning as in the Prospectus, unless otherwise noted. A copy of the Prospectus may be obtained without charge by writing to the Distributor, calling +1-844-808-3557 or visiting [www.dhandhoetfs.com](http://www.dhandhoetfs.com). When available, an annual report for the Fund will be available in the same manner at no charge by request to the Fund at the address, website or phone number noted above. The Fund's audited financial statements for the most recent fiscal year (when available) are incorporated in this SAI by reference to the Fund's most recent annual report to shareholders.

THE SECURITIES AND EXCHANGE COMMISSION ("SEC") HAS NOT APPROVED OR DISAPPROVED THESE SECURITIES OR PASSED UPON THE ADEQUACY OF THIS SAI. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

This SAI does not constitute an offer to sell securities.

## GLOSSARY

The following terms are used throughout this SAI, and have the meanings used below:

“**1933 Act**” means the Securities Act of 1933, as amended.

“**1934 Act**” means the Securities Exchange Act of 1934, as amended.

“**Authorized Participant**” means a broker-dealer or other participant in the Continuous Net Settlement System of the National Securities Clearing Corporation (NSCC) or a participant in DTC with access to the DTC system, who has executed an agreement with the Distributor that governs transactions in the Fund’s Creation Units.

“**Balancing Amount**” means an amount equal to the difference between the NAV of a Creation Unit and the market value of the In-Kind Creation (or Redemption) Basket, used to ensure that the NAV of a Fund Deposit (or Redemption) (other than the Transaction Fee), is identical to the NAV of the Creation Unit being purchased.

“**Board**” means the Board of Trustees of the Trust.

“**Business Day**” means any day on which the Trust is open for business.

“**Cambria**” means Cambria Investment Management, L.P., the investment adviser to the Fund.

“**Cash Component**” means an amount of cash consisting of a Balancing Amount and a Transaction Fee calculated in connection with creations.

“**Cash Redemption Amount**” means an amount of cash consisting of a Balancing Amount and a Transaction Fee calculated in connection with redemptions.

“**CEA**” means the Commodity Exchange Act, as amended.

“**CFTC**” means the Commodity Futures Trading Commission.

“**Code**” means the Internal Revenue Code of 1986, as amended.

“**Creation Unit**” means an aggregation of 50,000 Shares that the Fund issues and redeems on a continuous basis at NAV. Shares will not be issued or redeemed except in Creation Units.

“**Distributor**” means SEI Investments Distribution Co., the distributor to the Fund.

“**Dodd-Frank Act**” means the Dodd-Frank Wall Street Reform and Consumer Protection Act.

“**DTC**” means the Depository Trust Company.

“**Exchange**” means the NYSE Arca, Inc.

“**FINRA**” means the Financial Industry Regulatory Authority.

“**Fund**” means the series of the Trust discussed in this SAI: the Dhandho Junoon ETF.

“**Fund Deposit**” means the In-Kind Creation Basket and Cash Component necessary to purchase a Creation Unit from the Fund.

“**Fund Redemption**” means the In-Kind Redemption Basket and Cash Redemption Amount received in connection with the redemption of a Creation Unit.

“**IIV**” means an approximate per Share value of the Fund’s portfolio, disseminated every fifteen seconds throughout the trading day by the Exchange through the facilities of the Consolidated Tape Association or other information providers, known as the Intraday Indicative Value.

“**In-Kind Creation Basket**” means the basket of securities to be deposited to purchase Creation Units of the Fund.

**“In-Kind Redemption Basket”** means the basket of securities a shareholder will receive upon redemption of a Creation Unit.

**“Index Provider”** means Dhandho Funds, LLC.

**“Investment Company Act”** means the Investment Company Act of 1940, as amended.

**“IRS”** means the Internal Revenue Service.

**“NAV”** means the net asset value of a Share.

**“NSCC”** means the National Securities Clearing Corporation.

**“NYSE”** means the New York Stock Exchange, Inc.

**“Prospectus”** means the Fund’s Prospectus, dated October 12, 2016, as amended and supplemented from time to time.

**“SAI”** means this Statement of Additional Information, dated October 12, 2016, as amended and supplemented from time to time.

**“SEC”** means the United States Securities and Exchange Commission.

**“Shares”** means the shares of the Fund.

**“Transaction Fees”** are fees imposed to compensate the Trust for costs incurred in connection with transactions for Creation Units. The Transaction Fee is comprised of a flat (or standard) fee and may include a variable fee. For the Transaction Fees applicable to the Fund, see “Transaction Fees” in this SAI.

**“Trust”** means the Cambria ETF Trust, a Delaware statutory trust.

**“Underlying Index”** means the Dhandho Junoon Index.

## **TRUST AND FUND OVERVIEW**

The Trust is a Delaware statutory trust formed on September 9, 2011 and an open-end registered management investment company comprised of nine operational funds, one of which is discussed in this SAI. The Fund is a non-diversified, index-based exchange-traded fund that seeks investment results that correspond (before fees and expenses) generally to the performance of its Underlying Index. The offering of the Shares is registered under the 1933 Act.

The Fund offers and issues Shares at NAV only in aggregations of a specified number of Shares, generally in exchange for a basket of securities constituting the portfolio holdings of the Fund, together with the deposit of a specified cash payment, or, in certain circumstances, for an all cash payment. Shares of the Fund will be listed and traded on the Exchange. Shares will trade on the Exchange at market prices that may be below, at, or above NAV.

Unlike mutual funds, Shares are not individually redeemable securities. Rather, the Fund issues and redeems Shares on a continuous basis at NAV, only in Creation Units of 50,000 Shares. In the event of the liquidation of the Fund, the Trust may lower the number of Shares in a Creation Unit.

In the instance of creations and redemptions, Transaction Fees may be imposed. Such fees are limited in accordance with requirements of the SEC applicable to management investment companies offering redeemable securities. Some of the information contained in this SAI and the Prospectus — such as information about purchasing and redeeming Shares from the Fund and Transaction Fees — is not relevant to most retail investors because it applies only to transactions for Creation Units and most retail investors do not transact for Creation Units.

Once created, Shares generally trade in the secondary market, at market prices that change throughout the day, in amounts less than a Creation Unit. Investors purchasing Shares in the secondary market through a brokerage account or with the assistance of a broker may be subject to brokerage commissions and charges.

## **EXCHANGE LISTING AND TRADING**

Shares of the Fund will be listed and traded on the Exchange. Shares trade on the Exchange or in secondary markets at prices that may differ from their NAV or IIV, including because such prices may be affected by market forces (such as supply and demand for Shares). As is the case for other securities traded on an exchange, when you buy or sell Shares on the Exchange or in the secondary markets your broker will normally charge you a commission or other transaction charges. Further, the Trust reserves the right to adjust the price of Shares in the future to maintain convenient trading ranges for investors (namely, to maintain a price per Share that is attractive to investors) by share splits or reverse share splits, which would have no effect on the NAV.

There can be no assurance that the requirements of the Exchange for maintaining the listing of Shares of the Fund will continue to be met. The Exchange may, but is not required to, remove the Shares of the Fund from listing if: (i) following the initial 12-month period beginning at the commencement of trading of the Fund, there are fewer than 50 beneficial owners of the Shares of the Fund for 30 or more consecutive trading days, or (ii) such other event shall occur or condition exist that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. The Exchange will remove the Shares of the Fund from listing and trading upon termination of the Fund.

The Fund is not sponsored, endorsed, sold or promoted by the Exchange. The Exchange makes no representation or warranty, express or implied, to the owners of Shares of the Fund or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly or the ability of the Fund to achieve its objective. The Exchange has no obligation or liability in connection with the administration, marketing or trading of the Fund.

## **DISCLOSURE OF PORTFOLIO HOLDINGS**

The Board has adopted a policy regarding the disclosure of information about the Fund's portfolio securities. Under the policy, portfolio holdings of the Fund, which will form the basis for the calculation of NAV on a Business Day, are publicly disseminated prior to the opening of trading on the Exchange that Business Day through financial reporting or news services, including the website [www.dhandhoetfs.com](http://www.dhandhoetfs.com). In addition, each Business Day a portfolio composition file, which displays the In-Kind Creation Basket and Cash Component, is publicly disseminated prior to the opening of the Exchange via the NSCC.

## **INTRADAY INDICATIVE VALUE**

The IIV is an approximate per Share value of the Fund's portfolio holdings, which is disseminated every fifteen seconds throughout the trading day by the Exchange through the facilities of the Consolidated Tape Association or by market data vendors or other information providers. The IIV is based on the current market value of the Fund's Fund Deposit. The IIV does not necessarily reflect the precise composition of the current portfolio of securities held by the Fund at a particular point in time or the best possible valuation of the current portfolio. This approximate value should not be viewed as a "real-time" update of NAV because the approximate value may not be calculated in the same manner as the NAV, which is computed once a day. The Exchange calculates the IIV during hours of trading on the Exchange by dividing the "Estimated Fund Value" as of the time of the calculation by the total number of outstanding Shares. "Estimated Fund Value" is the sum of the estimated amount of cash held in the Fund's portfolio, the estimated amount of accrued interest owing to the Fund and the estimated value of the securities held in the Fund's portfolio, minus the estimated amount of liabilities. The IIV will be calculated based on the same portfolio holdings disclosed on the Fund's website. The IIV is generally determined by using both current market quotations and/or price quotations obtained from broker-dealers and other market intermediaries that may trade in the portfolio securities held by the Fund. As such, investors should not expect to buy or sell the Fund's shares at the IIV. The Fund is not involved in, or responsible for, the calculation or dissemination of such values and make no warranty as to their accuracy.

## **INVESTMENT POLICIES AND RESTRICTIONS**

The investment policies enumerated in this section may be changed with respect to the Fund only by a vote of the holders of a majority of the Fund's outstanding voting securities, except as noted below:

1. The Fund may not borrow money, except to the extent permitted by the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
2. The Fund may not issue senior securities, except to the extent permitted by the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
3. The Fund may not engage in the business of underwriting securities except to the extent that the Fund may be considered an underwriter within the meaning of the 1933 Act in the acquisition, disposition or resale of its portfolio securities or in connection with investments in other investment companies, or to the extent otherwise permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.

4. The Fund may not purchase or sell real estate, except to the extent permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
5. The Fund may not purchase or sell commodities, contracts relating to commodities or options on contracts relating to commodities except to the extent permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief. This policy shall not prevent the Fund from purchasing or selling foreign currency or purchasing, selling or entering into futures contracts, options, forward contracts, swaps, caps, floors, collars and other financial instruments as currently exist or may in the future be developed.
6. The Fund may not make loans, except to the extent permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
7. The Fund will not concentrate its investments in issuers of one or more particular industries, except that the Fund will invest more than 25% of its total assets in securities of the same industry to approximately the same extent that its Underlying Index concentrates in the securities of a particular industry or group of industries.

With respect to the fundamental policy relating to borrowing money set forth in (1) above, the Investment Company Act permits the Fund to borrow money in amounts of up to one-third of the Fund's total assets, at the time of borrowing, from banks for any purpose (the Fund's total assets include the amounts being borrowed). To limit the risks attendant to borrowing, the Investment Company Act requires the Fund to maintain at all times an "asset coverage" of at least 300% of the amount of its borrowings (not including borrowings for temporary purposes in an amount not exceeding 5% of the value of the Fund's total assets). Asset coverage means the ratio that the value of the Fund's total assets (including amounts borrowed), minus liabilities other than borrowings, bears to the aggregate amount of all borrowings. In the event that such asset coverage falls below this percentage, the Fund is required to reduce the amount of its borrowings within three days (not including Sundays and holidays) so that the asset coverage is restored to at least 300%.

With respect to the fundamental policy relating to issuing senior securities set forth in (2) above, "senior securities" are defined as fund obligations that have a priority over the Fund's shares with respect to the payment of dividends or the distribution of Fund assets. The Investment Company Act prohibits the Fund from issuing any class of senior securities or selling any senior securities of which it is the issuer, except that the Fund is permitted to borrow from banks, as described immediately above.

With respect to the fundamental policy relating to making loans set forth in (6) above, the Investment Company Act does not prohibit the Fund from making loans; however, SEC staff interpretations currently prohibit funds from lending more than one-third of their total assets, except through the purchase of debt obligations. (A repurchase agreement is an agreement to purchase a security, coupled with an agreement to sell that security back to the original seller on an agreed-upon date at a price that reflects current interest rates. The SEC staff treats repurchase agreements as loans).

Except with respect to borrowing, if a percentage limitation is satisfied at the time of investment, a later increase or decrease in such percentage resulting from a change in the value of the Fund's investments will not constitute a violation of such limitation. Thus, the Fund may continue to hold a security even though it causes the Fund to exceed a percentage limitation because of fluctuation in the value of the Fund's assets, except that any borrowing by the Fund that exceeds the fundamental investment limitations stated above must be reduced to meet such limitations within the period required by the Investment Company Act or the relevant rules, regulations or interpretations thereunder.

For purposes of applying the limitation set forth in the concentration policy, the Fund, with respect to its equity holdings, will generally use the industry classifications provided by the Global Industry Classification System. Securities of the U.S. government (including its agencies and instrumentalities) and tax-free securities of state or municipal governments and their political subdivisions (and repurchase agreements collateralized by government securities) are not considered to be issued by members of any industry.

## **INVESTMENT OBJECTIVES, INVESTMENT STRATEGIES AND RISKS**

The Fund's investment objective, principal investment strategies and associated risks are described in the Fund's Prospectus. The sections below supplement these principal investment strategies and risks and describe the Fund's additional investment policies and the different types of investments that may be made by the Fund as a part of its non-principal investment strategies. Unless otherwise indicated in the Prospectus or this SAI, the investment objective and policies of the Fund may be changed without shareholder approval.

### **Cash Items**

The Fund may invest a portion of its assets in cash or cash items pending other investments or to maintain liquid assets required in connection with some of the Fund's investments. These cash items and other high quality debt securities may include money market instruments, such as securities issued by the U.S. Government and its agencies, bankers' acceptances, commercial paper, bank certificates of deposit and investment companies that invest primarily in such instruments.

### **CFTC Regulation**

Cambria may use non-deliverable (or "cash-settled") forward currency contracts to attempt to gain exposure to currencies or to otherwise manage the risks of the Fund's investments. Such forward contracts are considered to be derivatives.

The 2010 enactment of the Dodd-Frank Act resulted in historic and comprehensive statutory reform of derivatives, including such forward contracts, and the manner in which they are designed, negotiated, reported, executed, settled (or "cleared") and regulated. The Dodd-Frank Act requires the SEC and the CFTC to establish new regulation with respect to such derivatives. Some of the rules implementing the Dodd-Frank Act have not been finalized, and the impact of these rules, including how they might apply to the Fund's forward currency contracts, is uncertain. For example, such contracts may be centrally cleared, as noted in this SAI.

*Central Clearing.* Forward currency contracts that are centrally cleared are subject to the creditworthiness of the clearing organizations involved in the transaction. For example, an investor could lose margin payments it has deposited with the clearing organization as well as the net amount of gains not yet paid by the clearing organization if it breaches its agreement with the investor or becomes insolvent or goes into bankruptcy. In the event of bankruptcy of the clearing organization, the investor may be entitled to the net amount of gains the investor is entitled to receive plus the return of margin owed to it only in proportion to the amount received by the clearing organization's other customers, potentially resulting in losses to the investor.

To the extent a forward currency contract is not centrally cleared, the use of forward currency contracts also involves the risk that a loss may be sustained as a result of the insolvency or bankruptcy of the counterparty or the failure of the counterparty to make required payments or otherwise comply with the terms of the agreement. The creditworthiness of firms with which the Fund enters into forward currency contracts will be monitored by Cambria. If a counterparty's creditworthiness declines, the value of the forward currency contract might decline, potentially resulting in losses to the Fund. Changing conditions in a particular market area may have an adverse impact on the creditworthiness of the counterparty. For example, the counterparty may have experienced losses as a result of its exposure to a sector of the market that adversely affect its creditworthiness. If a default occurs by the other party to such transaction, the Fund may have contractual remedies pursuant to the agreements related to the transaction, but exercising these remedies could take significant time and expense.

*Commodity Pool Exclusion and Registration.* In February 2012, the CFTC announced substantial amendments to the exclusion in its Regulation 4.5 for registered investment companies from registration as a commodity pool operator (“CPO”). Under these amendments, if the Fund uses commodity interests (such as cash-settled forward contracts) other than for *bona fide* hedging purposes (as defined by the CFTC) and seeks to claim the Regulation 4.5 exclusion from registration, the aggregate initial margin and premiums required to establish these positions (after taking into account unrealized profits and unrealized losses on any such positions and excluding the amount by which options are “in-the-money” at the time of purchase) may not exceed 5% of the Fund’s NAV. Alternatively, the aggregate net notional value of these positions, determined at the time the most recent position was established, may not exceed 100% of the Fund’s NAV (after taking into account unrealized profits and unrealized losses on any such positions).

Cambria has claimed the Regulation 4.5 exclusion from registration as a CPO under the CEA, in its management of the Fund and intends to comply with one of the two alternative limitations described above. To the extent these limits are approached, Cambria may not be able to take advantage of investment opportunities for the Fund in order to comply with and maintain the exclusion.

*Cover.* Transactions using derivative instruments, such as forward currency contracts, may expose the Fund to an obligation to another party. Under such circumstances, the Fund will comply with SEC guidelines regarding cover for these obligations and will, if the guidelines so require, set aside cash or liquid assets in an account or on the books with its custodian in the prescribed amount as determined daily. Such cover will generally be either (1) an offsetting (covered) position in securities, currencies or other options, futures contracts, forward contracts or swaps, or (2) cash and liquid assets with a value, marked-to-market daily, sufficient to cover its potential obligations.

Assets used as cover or held in an account cannot be sold while the position in the corresponding derivative is open, unless they are replaced with other appropriate assets. As a result, the commitment of a large portion of the Fund’s assets to cover or to segregated accounts could impede portfolio management or the Fund’s ability to meet redemption requests or other current obligations.

*Turnover.* The Fund’s forward currency contracts activities, if any, may affect its turnover rate. The sale or purchase of forward currency contracts may cause the Fund to sell or purchase related investments, thus increasing its turnover rate.

### **Credit Quality Standards**

When investing in fixed income securities and, if applicable, preferred or convertible stocks, the Fund maintains the following credit quality standards, which apply at the time of investment:

For securities that carry a rating assigned by a nationally recognized statistical rating organization (a “Rating Organization”), Cambria will use the highest rating assigned by the Rating Organization to determine a security’s credit rating. Commercial paper must be rated at least “A-1” or equivalent by a Rating Organization. Corporate debt obligations, mortgage-backed and other asset-backed securities and municipal securities must be rated at least “B-” or equivalent by a Rating Organization. For securities that are not rated by a Rating Organization, Cambria’s internal credit rating will apply and be subject to the equivalent rating minimums described here. The Fund may retain a debt security that has been downgraded below the initial investment criteria.

## **Debt and Other Fixed Income Securities Generally**

Debt securities include securities issued or guaranteed by the U.S. Government, its agencies, instrumentalities, and political subdivisions, foreign governments, their authorities, agencies, instrumentalities, and political subdivisions, supra-national agencies, corporate debt securities, master-demand notes, Yankee dollar and Eurodollar bank certificates of deposit, time deposits, bankers' acceptances, commercial paper and other notes, inflation-indexed securities, and other debt securities. Debt securities may be investment grade securities or high yield securities, which are described below. Investment grade securities include securities issued or guaranteed by the U.S. Government, its agencies and instrumentalities, as well as securities rated in one of the four highest rating categories by at least two Rating Organizations rating that security, such as Standard & Poor's Ratings Services ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch Ratings Ltd. ("Fitch"), or rated in one of the four highest rating categories by one Rating Organization if it is the only Rating Organization rating that security or unrated, if deemed to be of comparable quality by Cambria and traded publicly on the world market. The Fund, at the discretion of Cambria, may retain a debt security that has been downgraded below the initial investment criteria.

Debt and other fixed income securities include fixed and floating rate securities of any maturity. Fixed rate securities pay a specified rate of interest or dividends. Floating rate securities pay a rate that is adjusted periodically by reference to a specified index or market rate. Fixed and floating rate securities include securities issued by federal, state, local, and foreign governments and related agencies, and by a wide range of private issuers, and generally are referred to in this SAI as "fixed income securities." Indexed bonds are a type of fixed income security whose principal value and/or interest rate is adjusted periodically according to a specified instrument, index, or other statistic (*e.g.*, another security, inflation index, currency, or commodity).

Holders of fixed income securities are exposed to both market and credit risk. Market risk (or "interest rate risk") relates to changes in a security's value as a result of changes in interest rates. In general, the values of fixed income securities increase when interest rates fall and decrease when interest rates rise. Given the historically low interest rate environment, risks associated with rising rates are heightened. Credit risk relates to the ability of an issuer to make payments of principal and interest. Obligations of issuers are subject to bankruptcy, insolvency and other laws that affect the rights and remedies of creditors.

Because interest rates vary, the future income of the Fund that invests in fixed income securities cannot be predicted with certainty. The future income of the Fund that invests in indexed securities also will be affected by changes in those securities' indices over time (*e.g.*, changes in inflation rates, currency rates, or commodity prices).

## **Equity-Related Investments**

### **Common Stocks**

Common stock represents an ownership interest in a company and usually possesses voting rights and earns dividends. Dividends on common stock are not fixed but are declared at the discretion of the issuer. Common stock generally represents the riskiest investment in a company. In addition, common stock generally has the greatest appreciation and depreciation potential because increases and decreases in earnings are usually reflected in a company's common stock price.

The fundamental risk of investing in common stock is the risk that the value of the stock might decrease. Stock values fluctuate in response to the activities of an individual company or in response to general market and/or economic conditions. Historically, common stocks have provided greater long-term returns and have entailed greater short-term risks than preferred stocks, fixed-income securities and money market investments. This may not be true currently or in the future. The market value of all securities, including common stocks, is based upon the market's perception of value and not necessarily the book value of an issuer or other objective measure of a company's worth. If you invest in the Fund, you should be willing to accept the risks of the stock market and should consider an investment in the Fund only as a part of your overall investment portfolio.

### **Convertible Securities**

Convertible securities include fixed-income securities, preferred stock or other securities that may be converted into or exchanged for a given amount of common stock of the same or a different issuer during a specified period and at a specified price in the future. A convertible security entitles the holder to receive interest on debt or the dividend on preferred stock until the convertible security matures or is redeemed, converted or exchanged.

Convertible securities have unique investment characteristics in that they generally: (1) have higher yields than the underlying common stock, but lower yields than comparable non-convertible securities; (2) are less subject to fluctuation in value than the underlying common stock since they have fixed-income characteristics; and (3) provide the potential for capital appreciation if the market price of the underlying common stock increases.

A convertible security may be subject to redemption at the option of the issuer at a price established in the convertible security's governing instrument. If a convertible security is called for redemption, the Fund will be required to permit the issuer to redeem the security, convert it into the underlying common stock or sell it to a third party.

Convertible securities are typically issued by smaller capitalization companies whose stock price may be volatile. Therefore, the price of a convertible security may reflect variations in the price of the underlying common stock in a way that non-convertible debt does not. The extent to which such risk is reduced, however, depends in large measure upon the degree to which the convertible security sells above its value as a fixed-income security.

### **Master Limited Partnerships**

The Fund may invest in master limited partnerships ("MLPs") which are publicly traded partnerships primarily engaged in the transportation, storage, processing, refining, marketing, exploration, production, and mining of minerals and natural resources. Their interests, or units, trade on public securities exchanges exactly like the shares of a corporation, without entity level taxation. MLPs generally have two classes of owners, one or more general partners and the limited partners (i.e., investors). The general partner typically controls the operations and management of the MLP through an equity interest in the MLP plus, in many cases, ownership of common units and subordinated units. Limited partners typically own the remainder of the partnership, through ownership of common units, and have a limited role in the partnership's operations and management. In certain instances, creditors of an MLP would have the right to seek a return of capital that had been distributed to a limited partner. The right of an MLP's creditors would continue even after the Fund had sold its investment in the partnership. MLPs typically invest in real estate, oil and gas equipment leasing assets, but they also finance entertainment, research and development, and other projects.

MLP common units, like other equity securities, can be affected by macroeconomic and other factors affecting the stock market in general, expectations of interest rates, investor sentiment towards an issuer or certain market sector, changes in a particular issuer's financial condition, or unfavorable or unanticipated poor performance of a particular issuer (in the case of MLPs, generally measured in terms of distributable cash flow). Prices of common units of individual MLPs, like the prices of other equity securities, also can be affected by fundamentals unique to the partnership or company, including earnings power and coverage ratios.

#### **Investments in Other Investment Companies or Other Pooled Investments**

The Fund may invest in the securities of other investment companies to the extent permitted by law. Subject to applicable regulatory requirements, the Fund may invest in shares of both open- and closed-end investment companies (including money market funds and ETFs). The market price for ETF and closed-end fund shares may be higher or lower than, respectively, the ETF's and closed-end fund's NAV. Investing in another investment company exposes the Fund to all the risks of that investment company and, in general, subjects it to a pro rata portion of the other investment company's fees and expenses. As a result, an investment by the Fund in an ETF or investment company could cause the Fund's operating expenses to be higher and, in turn, performance to be lower than if the Fund were to invest directly in the securities underlying the ETF or investment company. The Fund also may invest in private investment funds, vehicles, or structures.

#### **Preferred Stocks**

The Fund may invest in preferred stocks. Preferred stocks include convertible and non-convertible preferred and preference stocks that are senior to common stock. Preferred stocks are equity securities that are senior to common stock with respect to the right to receive dividends and a fixed share of the proceeds resulting from the issuer's liquidation. Some preferred stocks also entitle their holders to receive additional liquidation proceeds on the same basis as holders of the issuer's common stock, and thus represent an ownership interest in the issuer. Depending on the features of the particular security, holders of preferred stock may bear the risks disclosed in the Prospectus or this SAI regarding equity or fixed income securities.

#### **Real Estate Investment Trusts ("REITs")**

A REIT is a company that pools investor funds to invest primarily in income producing real estate or real estate related loans or interests. REITs are not taxed on income distributed to their shareholders if, among other things, they distribute substantially all of their taxable income (other than net capital gains) for each taxable year.

Because REITs have ongoing fees and expenses, which may include management, operating and administration expenses, REIT shareholders, including the Fund, will indirectly bear a proportionate share of those expenses in addition to the expenses of the Fund. However, such expenses are not considered to be Acquired Fund Fees and Expenses and, therefore, are not reflected as such in the Fund's fee table.

The Fund also may be subject to certain risks associated with the direct investments of the REITs. REITs may be affected by changes in their underlying properties and by defaults by borrowers or tenants. Mortgage REITs may be affected by the quality of the credit extended. Furthermore, REITs are dependent on specialized management skills. Some REITs may have limited diversification and may be subject to risks inherent in financing a limited number of properties. REITs depend generally on their ability to generate cash flow to make distributions to shareholders or unitholders, and may be subject to defaults by borrowers and to self-liquidations. In addition, the performance of a REIT may be affected by its failure to qualify for tax-free pass-through of income under the Code, including regulations thereunder and IRS interpretations or similar authority upon which the Fund may rely or its failure to maintain exemption from registration under the Investment Company Act.

## **Foreign Investments Generally**

*Foreign Market Risk.* Foreign security investment or exposure involves special risks not present in U.S. investments that can increase the chances that the Fund will lose money. These risks are higher for emerging markets investments, which can be subject to greater social, economic, regulatory and political uncertainties, and may have significantly less liquidity, than developed markets. In particular, the Fund is subject to the risk that because there are generally fewer investors on foreign exchanges and a smaller number of shares traded each day, it may be difficult for the Fund to buy and sell securities, or increase or decrease exposures, on those exchanges. In addition, prices of foreign securities may fluctuate more than prices of securities traded in the U.S.

*Foreign Economy Risk.* The economies of certain foreign markets often do not compare favorably with that of the U.S. with respect to such issues as growth of gross domestic product, reinvestment of capital, resources, and balance of payments positions. Certain foreign economies may rely heavily on particular industries or foreign capital and are more vulnerable to diplomatic developments, the imposition of economic sanctions against a particular country or countries, changes in international trading patterns, trade barriers, and other protectionist or retaliatory measures. Investments in foreign markets may also be adversely affected by governmental actions such as the imposition of capital controls, nationalization of companies or industries, expropriation of assets, or the imposition of punitive taxes. In addition, the governments of certain countries may prohibit or impose substantial restrictions on foreign investing in their capital markets or in certain industries. Any of these actions could severely affect security prices, impair the Fund's ability to purchase or sell foreign securities, or obtain exposure to them, or transfer the Fund's assets back into the U.S., or otherwise adversely affect the Fund's operations. Other foreign market risks include foreign exchange controls, difficulties in pricing securities, defaults on foreign government securities, difficulties in enforcing favorable legal judgments in foreign courts, and political and social instability. Legal remedies available to investors in certain foreign countries may be less extensive than those available to investors in the U.S. or other foreign countries. Foreign corporate governance may not be as robust as in the U.S. As a result, protections for minority investors may not be strong, which could affect security prices.

*Currency Risk and Exchange Risk.* Securities in which the Fund invests, or to which they obtain exposure, may be denominated or quoted in currencies other than the U.S. dollar. Changes in foreign currency exchange rates will affect the value of these securities. Generally, when the U.S. dollar rises in value against a foreign currency, an investment in a security denominated in that currency loses value because the currency is worth fewer U.S. dollars. Similarly when the U.S. dollar decreases in value against a foreign currency, an investment in, or exposure to, a security denominated in that currency gains value because the currency is worth more U.S. dollars. This risk is generally known as "currency risk," which is the possibility that a stronger U.S. dollar will reduce returns for U.S. investors investing overseas. Foreign currencies also involve the risk that they will be devalued or replaced, adversely affecting the Fund's investments.

*Governmental Supervision and Regulation/Accounting Standards.* Many foreign governments supervise and regulate stock exchanges, brokers and the sale of securities to a lesser extent than the U.S. government. Some countries may not have laws to protect investors the way that the U.S. securities laws do. Accounting standards in other countries are not necessarily the same as in the U.S. If the accounting standards in another country do not require as much disclosure or detail as U.S. accounting standards, it may be harder to completely and accurately determine a company's financial condition.

*Certain Risks of Holding Fund Assets Outside the U.S.* Foreign securities in which the Fund invests, or to which it obtains exposure, are generally held outside the U.S. in foreign banks and securities depositories. The Fund's custodian is the Fund's "foreign custody manager" as provided in Rule 17f-5 under the Investment Company Act. The "foreign custody manager" is responsible for determining that the Fund's directly-held foreign assets will be subject to reasonable care, based on standards applicable to custodians in relevant foreign markets. However, certain foreign banks and securities depositories may be recently organized or new to the foreign custody business. They may also have operations subject to limited or no regulatory oversight. Also, the laws of certain countries may put limits on the Fund's ability to recover its assets if a foreign bank or depository or issuer of a security or an agent of any of the foregoing goes bankrupt. In addition, it likely will be more expensive for the Fund to buy, sell and hold securities, or increase or decrease exposures thereto, in certain foreign markets than it is in the U.S. market due to higher brokerage, transaction, custody and/or other costs. The increased expense of investing in foreign markets reduces the amount the Fund can earn on its investments.

Settlement and clearance procedures in certain foreign markets differ significantly from those in the U.S. Foreign settlement and clearance procedures and trade regulations also may involve certain risks (such as delays in payment for or delivery of securities) not typically involved with the settlement of U.S. investments. Communications between the U.S. and emerging market countries may be unreliable, increasing the risk of delayed settlements or losses of security certificates. Settlements in certain foreign countries at times have not kept pace with the number of securities transactions. The problems may make it difficult for the Fund to carry out transactions. If the Fund cannot settle or is delayed in settling a purchase of securities, the Fund may miss attractive investment opportunities and certain of its assets may be uninvested with no return earned thereon for some period. If the Fund cannot settle or is delayed in settling a sale of securities, directly or indirectly, it may lose money if the value of the security then declines or, if it has contracted to sell the security to another party, the Fund could be liable to that party for any losses incurred.

Dividends and interest on, and proceeds from the sale of, foreign securities the Fund holds, or has exposure to, may be subject to foreign withholding or other taxes, and special federal tax considerations may apply.

#### **Asia-Pacific Risk**

Investments in securities of issuers in Asia-Pacific countries involve risks not typically associated with investments in securities of issuers in other regions. Such heightened risks include, among others, expropriation and/or nationalization of assets, confiscatory taxation, political instability, including authoritarian and/or military involvement in governmental decision-making, armed conflict and social instability as a result of religious, ethnic and/or socio-economic unrest. Certain Asia-Pacific economies have experienced rapid rates of economic growth and industrialization in recent years, and there is no assurance that these rates of economic growth and industrialization will be maintained.

Certain Asia-Pacific countries have democracies with relatively short histories, which may increase the risk of political instability. These countries have faced political and military unrest, and further unrest could present a risk to their local economies and securities markets. Indonesia and the Philippines have each experienced violence and terrorism, which has negatively impacted their economies. North Korea and South Korea each have substantial military capabilities, and historical tensions between the two countries present the risk of war; in the recent past, these tensions have escalated. Any outbreak of hostilities between the two countries could have a severe adverse effect on the South Korean economy and securities market. Increased political and social unrest in these geographic areas could adversely affect the performance of investments in this region.

Certain governments in this region administer prices on several basic goods, including fuel and electricity, within their respective countries. Certain governments may exercise substantial influence over many aspects of the private sector in their respective countries and may own or control many companies. Future government actions could have a significant effect on the economic conditions in this region, which in turn could have a negative impact on private sector companies. There is also the possibility of diplomatic developments adversely affecting investments in the region.

Corruption and the perceived lack of a rule of law in dealings with international companies in certain Asian countries may discourage foreign investment and could negatively impact the long-term growth of certain economies in this region. In addition, certain countries in the region are experiencing high unemployment and corruption, and have fragile banking sectors. Their securities markets are not as developed as those of other countries and, therefore, are subject to additional risks such as trading halts. Some economies in this region are dependent on a range of commodities, including oil, natural gas and coal. Accordingly, they are strongly affected by international commodity prices and particularly vulnerable to any weakening in global demand for these products. The market for securities in this region may also be directly influenced by the flow of international capital, and by the economic and market conditions of neighboring countries. Adverse economic conditions or developments in neighboring countries may increase investors' perception of the risk of investing in the region as a whole, which may adversely impact the market value of the securities issued by companies in the region.

### **Depository Receipts**

The Fund may invest in foreign securities by purchasing sponsored and unsponsored depository receipts, including American Depositary Receipts ("ADRs"), European Depositary Receipts ("EDRs") and Global Depositary Receipts ("GDRs") or other securities convertible into securities of issuers based in foreign countries. These securities may not necessarily be denominated in the same currency as the securities which they represent. Generally, ADRs, in registered form, are denominated in U.S. dollars and are designed for use in the U.S. securities markets, GDRs, in bearer form, are issued and designed for use outside the United States and EDRs (also referred to as Continental Depositary Receipts ("CDRs")), in bearer form, may be denominated in other currencies and are designed for use in European securities markets. ADRs are receipts typically issued by a U.S. bank or trust company evidencing ownership of the underlying securities. EDRs are European receipts evidencing a similar arrangement. GDRs are receipts typically issued by non-United States banks and trust companies that evidence ownership of either foreign or domestic securities. For purposes of the Fund's investment policies, ADRs, GDRs and EDRs are deemed to have the same classification as the underlying securities they represent. Thus, an ADR, GDR or EDR representing ownership of common stock will be treated as common stock.

In an unsponsored arrangement, the foreign issuer assumes no obligations and the depository's transaction fees are paid by the depository holder. Unsponsored depository receipts may be created without the participation of the foreign issuer. Holders of these receipts generally bear all the costs of the depository receipt facility, whereas foreign issuers typically bear certain costs in a sponsored depository receipt. The bank or trust company depository of an unsponsored depository receipt may be under no obligation to distribute shareholder communications received from the foreign issuer or to pass through voting rights. Accordingly, available information concerning the issuer may not be current, and the prices of unsponsored depository receipts may be more volatile than the prices of sponsored depository receipts. In addition, the issuers of securities underlying unsponsored depository receipts may be subject to less stringent government supervision.

## Emerging Markets

Investing in companies domiciled in emerging market countries may be subject to greater risks than investments in developed countries. These risks include: (i) less social, political, and economic stability; (ii) greater illiquidity and price volatility due to smaller or limited local capital markets for such securities, or low or non-existent trading volumes; (iii) foreign exchanges and broker-dealers may be subject to less scrutiny and regulation by local authorities; (iv) local governments may decide to seize or confiscate securities held by foreign investors and/or local governments may decide to suspend or limit an issuer's ability to make dividend or interest payments; (v) local governments may limit or entirely restrict repatriation of invested capital, profits, and dividends; (vi) capital gains may be subject to local taxation, including on a retroactive basis; (vii) issuers facing restrictions on dollar or euro payments imposed by local governments may attempt to make dividend or interest payments to foreign investors in the local currency; (viii) investors may experience difficulty in enforcing legal claims related to the securities and/or local judges may favor the interests of the issuer over those of foreign investors; (ix) bankruptcy judgments may only be permitted to be paid in the local currency; (x) limited public information regarding the issuer may result in greater difficulty in determining market valuations of the securities, and (xi) lax financial reporting on a regular basis, substandard disclosure, and differences in accounting standards may make it difficult to ascertain the financial health of an issuer. Many emerging market countries have experienced currency devaluations and substantial (and, in some cases, extremely high) rates of inflation. Other emerging market countries have experienced economic recessions. These circumstances have had a negative effect on the economies and securities markets of such emerging market countries.

## Europe Risk

Investing in European countries exposes the Fund to the economic and political risks associated with Europe in general and the specific European countries in which it invests. The economies and markets of European countries are often closely connected and interdependent, and events in one European country can have an adverse impact on other European countries. The Fund makes investments in securities of issuers that are domiciled in, or have significant operations in, member countries of the Economic and Monetary Union of the European Union (the "EU"), which requires member countries to comply with restrictions on inflation rates, deficits, interest rates, debt levels and fiscal and monetary controls, each of which may significantly affect every country in Europe. Decreasing imports or exports, changes in governmental or EU regulations on trade, changes in the exchange rate of the euro (the common currency of certain EU countries), the default or threat of default by an EU member country on its sovereign debt, and/or an economic recession in an EU member country may have a significant adverse effect on the economies of EU member countries and their trading partners. Although certain European countries do not use the euro, many of these countries are obliged to meet the criteria for joining the euro zone. Consequently, these countries must comply with many of the restrictions noted above.

The European financial markets have experienced volatility and adverse trends in recent years due to concerns about economic downturns, rising government debt levels and the possible default of government debt in several European countries, including Greece, Ireland, Italy, Portugal and Spain. In order to prevent further economic deterioration, certain countries, without prior warning, can institute "capital controls." Countries may use these controls to restrict volatile movements of capital entering and exiting their country. Such controls may negatively affect the Fund's investments. A default or debt restructuring by any European country would adversely impact holders of that country's debt and sellers of credit default swaps linked to that country's creditworthiness, which may be located in countries other than those listed above. In addition, the credit ratings of certain European countries were recently downgraded. These downgrades may result in further deterioration of investor confidence. These events have adversely affected the value and exchange rate of the euro and may continue to significantly affect the economies of every country in Europe, including countries that do not use the euro and non-EU member countries. Responses to the financial problems by European governments, central banks and others, including austerity measures and reforms, may not produce the desired results, may result in social unrest and may limit future growth and economic recovery or have other unintended consequences. Further defaults or restructurings by governments and other entities of their debt could have additional adverse effects on economies, financial markets and asset valuations around the world. In addition, one or more countries may abandon the euro and/or withdraw from the EU. The impact of these actions, especially if they occur in a disorderly fashion, is not clear but could be significant and far-reaching.

Investing in the securities of issuers located or operating in Eastern Europe is highly speculative and involves risks not usually associated with investing in the more developed markets of Western Europe. Political and economic reforms are too recent to establish a definite trend away from centrally planned economies and state-owned industries. In the past, some Eastern European governments have expropriated substantial amounts of private property, and many claims of the property owners have never been fully settled.

Many Eastern European countries continue to move toward market economies at different paces with different characteristics. Most Eastern European securities markets suffer from thin trading activity, dubious investor protections, and often a dearth of reliable corporate information. Information and transaction costs, differential taxes, and sometimes political or transfer risk give a comparative advantage to the domestic investor rather than the foreign investor. In addition, these markets are particularly sensitive to social, political, economic, and currency events in Russia and may suffer heavy losses as a result of their trading and investment links to the Russian economy and currency. Russia also may attempt to assert its influence in the region through economic or even military measures, as it did with Georgia in the summer of 2008 and Ukraine in 2014. Eastern European economies may also be particularly susceptible to changes in the international credit markets due to their reliance on bank related inflows of capital. The global economic crisis has restricted international credit supplies, and several Eastern European economies have faced significant credit and economic crises. Although some Eastern European economies are expanding again, major challenges are still present as a result of their continued dependence on the Western European zone for credit.

In June 2016, the United Kingdom voted in a referendum to leave the EU. As a result of the referendum, S&P downgraded the United Kingdom's credit rating from "AAA" to "AA" and the EU's credit rating from "AA+" to "AA" in the days that followed the vote. Other credit ratings agencies have taken similar actions. Although the precise timeframe for "Brexit" is uncertain, it is currently expected that the United Kingdom will seek to withdraw from the EU by invoking article 50 of the Lisbon Treaty with an anticipated completion date within two years from notifying the European Council of the United Kingdom's intention to withdraw. It is unclear how withdrawal negotiations will be conducted and what the potential consequences may be. In addition, it is possible that measures could be taken to revote on the issue of Brexit, or that portions of the United Kingdom could seek to separate and remain a part of the EU. As a result of the political divisions within the United Kingdom and between the United Kingdom and the EU that the referendum vote has highlighted and the uncertain consequences of a Brexit, the economies of the United Kingdom and Europe as well as the broader global economy could be significantly impacted, which may result in increased volatility and illiquidity, and potentially lower economic growth on markets in the United Kingdom, Europe and globally that could potentially have an adverse effect on the value of a Fund's investments.

### **Foreign Currencies Transactions**

The Fund may hold funds in bank deposits in U.S. or foreign currency, including during the completion of investment programs. For additional currency exposure, the Fund may also conduct currency exchange transactions either on a spot (cash) basis at the spot rate prevailing in the foreign exchange market or by entering into a forward currency contract. These transactions will expose the Fund to foreign currency fluctuations.

The prediction of currency movements is extremely difficult and the successful execution of a speculative strategy is highly uncertain. Should exchange rates move in an unexpected manner, the Fund may not achieve the anticipated benefits of the transaction, or it may realize losses. The successful use of forward currency contracts will usually depend on Cambria's ability to forecast accurately currency exchange rate movements and its skill in analyzing and predicting currency values. There is no assurance that Cambria's use of forward currency contracts will be advantageous to the Fund or that Cambria will hedge exposures at an appropriate time. The precise matching of forward contract amounts and the value of the securities involved is generally not possible because the value of such securities, measured in the foreign currency, will change after the forward currency contract has been established. The projection of short-term currency market movements is extremely difficult, and the successful execution of a short-term hedging strategy is highly uncertain. Further, under certain circumstances, the Fund may have to limit its currency transactions to qualify as a "regulated investment company" under the Code or to maintain its exception from registration as a commodity pool operator under the CEA.

Forward contracts may be considered "derivatives" — financial instruments whose performance is derived, at least in part, from the performance of another asset (such as a security, currency or an index of securities). A forward currency contract involves an obligation to purchase or sell a specific amount of a specific currency at a future date, which may be any fixed number of days (usually less than one year) from the date of the contract agreed upon by the parties, at a price set at the time of the contract.

At or before settlement of a forward currency contract, the Fund may either deliver the currency or terminate its contractual obligation to deliver the currency by purchasing an offsetting contract; or, if the forward currency contract is cash settled, pay or receive the difference between it and its counterparty's obligations under the contract. If the Fund makes delivery of a currency at or before the settlement of a forward contract, it may be required to obtain the currency through the conversion of assets into the currency. The Fund may close out a forward contract obligating it to purchase currency by selling an offsetting contract. If the Fund engages in an offsetting transaction, it may later enter into a new forward currency contract to sell the currency. If the Fund engages in an offsetting transaction, it will incur a gain or loss to the extent that there has been movement in forward currency contract prices.

Forward currency contracts have historically been individually negotiated and privately traded by currency traders and their customers, though in the future they may become centrally cleared. These contracts may result in a loss if a counterparty, including a central clearing agency, does not perform as expected or becomes insolvent. In the event of insolvency of a counterparty, the Fund might be unable to close out a forward currency contract at any time prior to maturity or, even if it entered an offsetting transaction with a second counterparty, the Fund would continue to be subject to settlement risk relating to the transaction with the insolvent counterparty.

The Fund may enter into forward contracts for a variety of reasons, including hedging and extracting investment returns.

*Hedging.* With respect to hedging, the Fund may invest in forward currency contracts to hedge either specific transactions (transaction hedging) or portfolio positions (position hedging). Transaction hedging is the purchase or sale of forward currency contracts with respect to specific receivables or payables of the Fund in connection with the purchase and sale of portfolio securities. Position hedging is the sale of a forward currency contract on a particular currency with respect to portfolio positions denominated or quoted in that currency.

Position hedging and transaction hedging generally involve the Fund seeking to “lock in” the exchange rate between currencies. For example, if the Fund owned securities denominated in euros, to effectuate a position hedge, it could enter into a forward currency contract to sell euros in return for U.S. dollars to hedge against possible declines in the euro’s value. Such a hedge would tend to offset both positive and negative currency fluctuations, but would not offset changes in security values caused by other factors. The Fund could also hedge the position by selling another currency expected to perform similarly to the euro. This type of hedge, sometimes referred to as a proxy hedge, could offer advantages in terms of cost, yield or efficiency, but generally would not hedge currency exposure as effectively as a simple hedge into U.S. dollars. Proxy hedges may result in losses if the currency used to hedge does not perform similarly to the currency in which the hedged securities are denominated.

Purchasing a forward currency contract to lock in the U.S. dollar price of a security denominated in a foreign currency that the Fund intends to acquire may serve as a long hedge. Alternatively, selling a forward currency contract to lock in the U.S. dollar equivalent of the proceeds from the anticipated sale of a security or a dividend or interest payment denominated in a foreign currency may serve as a short hedge. Currency hedges do not protect against price movements in the securities that are attributable to other causes.

The Fund might seek to hedge against changes in the value of a particular currency when no forward currency contracts on that currency are available or such forward currency contracts are more expensive than certain other derivative instruments. In such cases, the Fund may seek to hedge against price movements in that currency by entering into transactions using forward currency contracts on another currency or a basket of currencies, the values of which Cambria believes will have a high degree of positive correlation to the value of the currency being hedged. The risk that movements in the price of the forward currency contract will not correlate perfectly with movements in the price of the currency subject to the hedging transaction is magnified when this strategy is used.

The Fund is not obligated to actively engage in currency hedging transactions; therefore, the Fund may not attempt to hedge its exposure to a particular foreign currency at a time when doing so might have avoided a loss. Further, the Fund may not be able to hedge against a currency devaluation that is so generally anticipated that the Fund is unable to contract to sell the currency at a price above the devaluation level it anticipates.

*Investing.* The Fund may invest in a combination of (i) forward foreign currency contracts and U.S. dollar-denominated instruments or (ii) forward currency contracts and non-U.S. dollar-denominated instruments to seek performance that is substantially the same as a direct investment in a foreign currency-denominated instrument. This investment technique creates a “synthetic” position in the particular foreign-currency instrument whose performance Cambria is trying to duplicate. For example, the combination of U.S. dollar-denominated exchange-traded funds or money market instruments with “long” forward currency exchange contracts creates a position economically equivalent to an instrument denominated in the foreign currency itself.

The Fund also may use forward currency contracts to attempt to enhance income or yield. The Fund could use forward currency contracts to increase its exposure to foreign currencies that Cambria believes might rise in value relative to the U.S. dollar, or shift its exposure to foreign currency fluctuations from one country to another. For example, if the Fund owned securities denominated in a foreign currency and Cambria believed that currency would decline relative to another currency, it might enter into a forward currency contract to sell an appropriate amount of the first foreign currency, with payment to be made in the second foreign currency. This is accomplished through contractual agreements to purchase or sell a specified currency at a specified future date and price set at the time of the contract.

Forward currency contracts may involve the sale of U.S. dollars and the purchase of a foreign currency, or may be foreign cross-currency contracts involving the sale of one foreign currency and the purchase of another foreign currency. Such foreign cross-currency contracts may be considered a hedging strategy rather than a speculative strategy if the Fund's commitment to purchase the new (more favorable) currency is limited to the market value of the Fund's securities denominated in the old (less favorable) currency.

With respect to transactions not entered into for hedging purposes, the Fund's custodian bank maintains, in a separate account of the Fund, liquid assets, such as cash, short-term securities and other liquid securities (marked to the market daily), having a value equal to, or greater than, any commitments to purchase currency on a forward basis.

Normally, consideration of the prospect for currency parities will be incorporated into the longer term investment decisions made with regard to overall diversification strategies. However, Cambria believes that it is important to have the flexibility to enter into such forward currency contracts when it determines that the best interests of the Fund will be served.

*Conversion.* Although the Fund values its assets daily in U.S. dollars, it does not convert its holdings of foreign currencies into U.S. dollars on a daily basis. The Fund will convert its holdings from time to time, however, and incur the costs of currency conversion. Foreign exchange dealers do not charge a fee for conversion, but they do realize a profit based on the difference between the prices at which they buy and sell various currencies. Thus, a dealer may offer to sell a foreign currency to the Fund at one rate, and offer to buy the currency at a lower rate if the Fund tries to resell the currency to the dealer.

Settlement of transactions involving foreign currencies might be required to take place within the country issuing the underlying currency. Thus, the Fund might be required to accept or make delivery of the underlying foreign currency in accordance with any U.S. or foreign regulations regarding the maintenance of foreign banking arrangements by U.S. residents and might be required to pay any fees, taxes and charges associated with such delivery assessed in the issuing country.

The value of the Fund's investments is calculated in U.S. dollars each day that the NYSE is open for business. As a result, to the extent that the Fund's assets are invested in instruments denominated in foreign currencies and the currencies depreciate relative to the U.S. dollar, the Fund's NAV per share as expressed in U.S. dollars (and, therefore, the value of your investment) should decrease. If the U.S. dollar appreciates relative to the other currencies, the opposite should occur.

The currency-related gains and losses experienced by the Fund will be based on changes in the value of portfolio securities attributable to currency fluctuations only in relation to the original purchase price of such securities as stated in U.S. dollars. Gains or losses on shares of the Fund will be based on changes attributable to fluctuations in the NAV of such shares, expressed in U.S. dollars, in relation to the original U.S. dollar purchase price of the shares. The amount of appreciation or depreciation in the Fund's assets also will be affected by the net investment income generated by the money market instruments in which the Fund invests and by changes in the value of the securities that are unrelated to changes in currency exchange rates.

Foreign currency transactions occurring in the interbank market might involve substantially larger amounts than those involved in the use of such forward currency contracts. Therefore, the Fund could be disadvantaged by having to deal in the odd lot market (generally consisting of transactions of less than \$1 million) for the underlying foreign currencies at prices that are less favorable than for round lots. There is no systematic reporting of last sale information for foreign currencies or any regulatory requirement that quotations available through dealers or other market sources be firm or revised on a timely basis. Quotation information generally is representative of very large transactions in the interbank market and thus might not reflect odd-lot transactions where rates might be less favorable. The interbank market in foreign currencies is a global, round-the-clock market. To the extent the U.S. options or futures markets are closed while the markets for the underlying currencies remain open, significant price and rate movements might take place in the underlying markets that cannot be reflected in the markets for the forward currency contracts until they reopen.

## **Futures Contracts and Related Options**

The Fund may purchase or sell stock index futures contracts and options thereon, including as a substitute for a comparable market position in the underlying securities, to hedge the portfolio, or to satisfy regulatory requirements. A futures contract generally obligates the seller to deliver (and the purchaser to take delivery of) the specified commodity on the expiration date of the contract. A stock index futures contract obligates the seller to deliver (and the purchaser to take) an amount of cash equal to a specific dollar amount (the contract multiplier) multiplied by the difference between the final settlement price of a specific stock index futures contract and the price at which the agreement is made. No physical delivery of the underlying stocks in the index is made.

The Fund generally chooses to engage in closing or offsetting transactions before final settlement wherein a second identical futures contract is sold to offset a long position (or bought to offset a short position). In such cases the obligation is to deliver (or take delivery of) cash equal to a specific dollar amount (the contract multiplier) multiplied by the difference between the price of the offsetting transaction and the price at which the original contract was entered into. If the original position entered into is a long position (futures contract purchased) there will be a gain (loss) if the offsetting sell transaction is done at a higher (lower) price, inclusive of commissions. If the original position entered into is a short position (futures contract sold) there will be a gain (loss) if the offsetting buy transaction is done at a lower (higher) price, inclusive of commissions.

Whether the Fund realizes a gain or loss from futures activities depends generally upon movements in the underlying asset. The extent of the Fund's loss from an unhedged short position in futures contracts is potentially unlimited. The Fund may engage in related closing transactions with respect to options on futures contracts. The Fund intends to engage in transactions in futures contracts that are traded on a U.S. exchange or board of trade or that have been approved for sale in the United States by the CFTC.

Upon entering into a futures contract, the Fund will be required to deposit with the broker an amount of cash or cash equivalents known as "initial margin," which is in the nature of a performance bond or good faith deposit on the contract, and that is returned to the Fund upon termination of the futures contract, assuming all contractual obligations have been satisfied. Subsequent payments, known as "variation margin," to and from the broker will be made daily as the price of the index underlying the futures contract fluctuates, making the long and short positions in the futures contract more or less valuable, a process known as "marking-to-market." At any time prior to expiration of a futures contract, the Fund may elect to close its position by taking an opposite position, which will operate to terminate the Fund's existing position in the contract.

The Fund may cover its long position in a futures contract by taking a short position in the instruments underlying the futures contract, or by taking positions in instruments the prices of which are expected to move relatively consistently inversely with the futures contract. The Fund may cover its short position in a futures contract by taking a long position in the instruments underlying the futures contract, or by taking positions in instruments, the prices of which are expected to move relatively consistently to the futures contract. The Fund may "cover" its short position in a futures contract by purchasing a call option on the same futures contract with a strike price (*i.e.*, an exercise price) as low or lower than the price of the futures contract, or, if the strike price of the call is greater than the price of the futures contract, the Fund will earmark or segregate cash or liquid instruments equal in value to the difference between the strike price of the call and the price of the future. The Fund may cover its long or short positions in futures by earmarking or segregating with its custodian bank or on the books and records of the Fund (and mark-to-market on a daily basis) cash or liquid instruments that, when added to any amounts deposited with a futures commission merchant as margin, are equal to the market value of the futures contract or otherwise "cover" its position.

Although the Fund intends to sell futures contracts only if there is an active market for such contracts, no assurance can be given that a liquid market will exist for any particular contract at any particular time. Many futures exchanges and boards of trade limit the amount of fluctuation permitted in futures contract prices during a single trading day. Once the daily limit has been reached in a particular contract, no trades may be made that day at a price beyond that limit or trading may be suspended for specified periods during the day. Futures contract prices could move to the limit for several consecutive trading days with little or no trading, thereby preventing prompt liquidation of futures positions and potentially subjecting the Fund to substantial losses. If trading is not possible, or if the Fund determines not to close a futures position in anticipation of adverse price movements, the Fund will be required to make daily cash payments of variation margin. The risk that the Fund will be unable to close out a futures position will be minimized by entering into such transactions on a national securities exchange with an active and liquid secondary market.

### **Illiquid Securities**

The Fund may invest up to 15% of its net assets in illiquid securities. For this purpose, “illiquid securities” are securities that the Fund may not sell or dispose of within seven days in the ordinary course of business at approximately the amount at which the Fund has valued the securities. A repurchase agreement maturing in more than seven days is considered illiquid, unless it can be terminated after a notice period of seven days or less.

Cambria also may deem certain securities to be illiquid as a result of Cambria’s receipt from time to time of material, non-public information about an issuer, which may limit Cambria’s ability to trade such securities for the account of any of its clients, including the Fund. In some instances, these trading restrictions could continue in effect for a substantial period of time.

At times, the inability to sell illiquid securities can make it more difficult to determine their fair value for purposes of computing the Fund’s net asset value. The judgment of Cambria normally plays a greater role in valuing these securities than in valuing publicly traded securities.

### **Repurchase Agreements**

The Fund may enter into repurchase agreements with banks and broker-dealers. A repurchase agreement is an agreement under which securities are acquired by the Fund from a securities dealer or bank subject to resale at an agreed upon price on a later date. The Fund bears a risk of loss in the event that the other party to a repurchase agreement defaults on its obligations and the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities. Such a default may subject the Fund to expenses, delays, and risks of loss including: (i) possible declines in the value of the underlying security while the Fund seeks to enforce its rights, (ii) possible reduced levels of income and lack of access to income during this period, and (iii) the inability to enforce its rights and the expenses involved in attempted enforcement.

Repurchase agreements may be treated as loans by the SEC staff. The Fund will not enter into repurchase agreements if, as a result, the aggregate amount of the Fund's loans would exceed 33 1/3% of its total assets.

### **Reverse Repurchase Agreements**

The Fund may enter into reverse repurchase agreements, which involve the sale of securities held by the Fund subject to its agreement to repurchase the securities at an agreed-upon date or upon demand and at a price reflecting a market rate of interest. Reverse repurchase agreements are subject to the Fund's limitation on borrowings and may be entered into only with banks or securities dealers or their affiliates. While a reverse repurchase agreement is outstanding, the Fund will maintain the segregation, either on its records or with the Trust's custodian, of cash or other liquid securities, marked to market daily, in an amount at least equal to its obligations under the reverse repurchase agreement.

Reverse repurchase agreements involve the risk that the buyer of the securities sold by the Fund might be unable to deliver them when the Fund seeks to repurchase. If the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the buyer or trustee or receiver may receive an extension of time to determine whether to enforce the Fund's obligation to repurchase the securities, and the Fund's use of the proceeds of the reverse repurchase agreement may effectively be restricted pending such decision.

### **Securities Lending**

The Fund may make secured loans of their portfolio securities; however, securities loans will not be made if, as a result, the aggregate amount of all outstanding securities loans by the Fund exceeds 33 1/3% of its total assets (including the market value of collateral received). For purposes of complying with the Fund's investment policies and restrictions, collateral received in connection with securities loans is deemed an asset of the Fund to the extent required by law. The Fund continues to receive dividends or interest, as applicable, on the securities loaned and simultaneously earns either interest on the investment of the cash collateral or fee income if the loan is otherwise collateralized.

To the extent the Fund engages in securities lending, securities loans will be made to broker-dealers that Cambria believes to be of relatively high credit standing pursuant to agreements requiring that the loans continuously be collateralized by cash, liquid securities, or shares of other investment companies with a value at least equal to the market value of the loaned securities. As with other extensions of credit, the Fund bears the risk of delay in the recovery of the securities and of loss of rights in the collateral should the borrower fail financially. The Fund also bears the entire risk of loss on any reinvested collateral received in connection with securities lending.

Voting rights or rights to consent with respect to the loaned securities pass to the borrower. The Fund has the right to call loans at any time on reasonable notice. However, the Fund bears the risk of delay in the return of the security, impairing the Fund's ability to vote on such matters. Cambria will retain lending agents on behalf of the Fund based on a percentage of the Fund's return on its securities lending. The Fund may also pay various fees in connection with securities loans, including shipping fees and custodian fees. The costs of lending securities are not reflected in the Fund's Annual Fund Operating Expenses.

### **Swap Agreements**

The Fund may enter into swap agreements, including interest rate swaps, credit default swaps, currency swaps, commodity index swaps, inflation-linked swaps and total return swaps. A typical interest rate swap involves the exchange of a floating interest rate payment for a fixed interest payment. A typical credit default swap ("CDS") involves an agreement to make a series of payments by the buyer in exchange for receipt of payment by the seller if the loan defaults. In the event of default the buyer of the CDS receives compensation (usually the face value of the loan), and the seller of the CDS takes possession of the defaulted loan. In the event that the Fund acts as a protection seller of a CDS, the Fund will segregate assets equivalent to the full notional value of the CDS. In the event that the Fund acts as a protection buyer of a CDS, the Fund will cover the total amount of required premium payments plus the pre-payment penalty. A typical foreign currency swap involves the exchange of cash flows based on the notional difference among two or more currencies (e.g., the U.S. dollar and the euro). Commodity index swaps and total return swaps involve the exchange of payments based on the value of an index or total return on an underlying reference asset. The total return includes appreciation or depreciation on the reference asset, plus any interest or dividend payments. Inflation-linked swaps are typically an agreement between two parties to exchange payments at a future date based on the difference between a fixed payment and a payment linked to the inflation rate at future date. Swap agreements can be structured to provide for periodic payments over the term of the swap contract or a single payment at maturity (also known as a "bullet swap"). Swap agreements may be used to hedge or achieve exposure to, for example, commodities, currencies, and interest rates without actually purchasing such commodities, currencies or securities. The Fund may use swap agreements to invest in a market without owning or taking physical custody of the underlying securities in circumstances in which direct investment is restricted for legal reasons or is otherwise impracticable. Swap agreements will tend to shift the Fund's investment exposure from one type of investment to another or from one payment stream to another.

Depending on their structure, swap agreements may increase or decrease the Fund's exposure to long- or short-term interest rates (in the United States or abroad), commodities, and foreign currencies, and may increase or decrease the overall volatility of the Fund's investments and its share price. When the Fund purchases or sells a swap contract, the Fund is required to "cover" its position in order to limit the risk associated with the use of leverage and other related risks. To cover its position, the Fund will maintain with its custodian bank (and mark-to-market on a daily basis) a segregated account consisting of cash or liquid securities that, when added to any amounts deposited as margin, are equal to the market value of the swap contract or otherwise "cover" its position in a manner consistent with the Investment Company Act or the rules and SEC interpretations thereunder. If the Fund continues to engage in the described securities trading practices and properly segregates assets, the segregated account will function as a practical limit on the amount of leverage which the Fund may undertake and on the potential increase in the speculative character of the Fund's outstanding portfolio securities. Additionally, such segregated accounts will generally ensure the availability of adequate funds to meet the obligations of the Fund arising from such investment activities.

### **Tracking an Index**

The Fund is managed with a passive investment strategy, attempting to track the performance of its Underlying Index. This differs from an actively managed fund, which typically seeks to outperform a benchmark index. As a result, the Fund may hold constituent securities of its Underlying Index regardless of the current or projected performance of a specific security or a particular industry or market sector. Maintaining investments in securities regardless of market conditions or the performance of individual securities could cause the Fund's return to be lower than if the Fund employed an active strategy.

Tracking error is the difference between the Fund's performance from that of the Underlying Index. This may occur due to an imperfect correlation between the Fund's holdings and those comprising the Underlying Index, pricing differences, the Fund's holding of cash, differences in the timing of dividend accruals, changes to the Underlying Index, or the need to meet regulatory requirements. This risk is heightened during times of increased market volatility or other unusual market conditions. Further, as a new fund, there can be no assurance that the Fund will grow to or maintain an economically viable size, in which case it may experience greater tracking error to its Underlying Index than it otherwise would at higher asset levels or it could ultimately liquidate.

An investment in the Fund should also be made with an understanding that the Fund will not be able to replicate exactly the performance of its Underlying Index because the total return generated by its portfolio securities will be reduced by transaction costs incurred in adjusting the actual balance of such securities and other Fund expenses, whereas such transaction costs and expenses are not included in the calculation of an Underlying Index. It is also possible that for short periods of time, the Fund may not fully replicate the performance of the Underlying Index due to the temporary unavailability of certain Underlying Index securities in the secondary markets or due to other extraordinary circumstances. Such events are unlikely to continue for an extended period of time because the Fund is required to correct such imbalances by means of adjusting the composition of its portfolio securities. It is also possible that the composition of the Fund may not exactly replicate the composition of its Underlying Index if the Fund has to adjust its portfolio securities in order to qualify as a “regulated investment company” under the Code.

### **U.S. Government Securities**

U.S. government securities include securities issued or guaranteed by the U.S. government or its authorities, agencies, or instrumentalities. Different kinds of U.S. government securities have different kinds of government support. For example, some U.S. government securities (*e.g.*, U.S. Treasury bonds) are supported by the full faith and credit of the U.S. Other U.S. government securities are issued or guaranteed by federal agencies or government-chartered or -sponsored enterprises but are neither guaranteed nor insured by the U.S. government (*e.g.*, debt securities issued by the Federal Home Loan Mortgage Corporation (“Freddie Mac”), Federal National Mortgage Association (“FNMA” or “Fannie Mae”), and Federal Home Loan Banks (“FHLBs”).

It is possible that the availability and the marketability (that is, liquidity) of the securities discussed in this section could be adversely affected by actions of the U.S. government to tighten the availability of credit.

As with other fixed income securities, U.S. government securities expose their holders to market risk because their values typically change as interest rates fluctuate. For example, the value of U.S. government securities may fall during times of rising interest rates. Yields on U.S. government securities tend to be lower than those of corporate securities of comparable maturities.

In addition to investing directly in U.S. government securities, the Fund may purchase certificates of accrual or similar instruments evidencing undivided ownership interests in interest payments and/or principal payments of U.S. government securities. Certificates of accrual and similar instruments may be more volatile than other government securities.

### **Cyber Security Risk**

The Fund, and its service providers, may be prone to operational and information security risks resulting from cyber-attacks. Cyber-attacks include, among other behaviors, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential information or various other forms of cyber security breaches. Cyber-attacks affecting the Fund or its advisors, custodian, transfer agent, intermediaries and other third-party service providers may adversely impact the Fund. For instance, cyber-attacks may interfere with the processing of shareholder transactions, impact the Fund’s ability to calculate its NAV, cause the release of private shareholder information or confidential business information, impede trading, subject the Fund to regulatory fines or financial losses and/or cause reputational damage. The Fund may also incur additional costs for cyber security risk management purposes. While the Fund’s service providers have established business continuity plans, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cyber security plans and systems put in place by its service providers or any other third parties whose operations may affect the Fund or its shareholders. Similar types of cyber security risks are also present for issues or securities in which the Fund may invest, which could result in material adverse consequences for such issuers and may cause the Fund’s investment in such companies to lose value.

## **PORTFOLIO TURNOVER**

“Portfolio Turnover Rate” is defined under the rules of the SEC as the lesser of the value of the securities purchased or of the securities sold, excluding all securities whose maturities at the time of acquisition were one-year or less, divided by the average monthly value of such securities owned during the year. Based on this definition, instruments with a remaining maturity of less than one-year are excluded from the calculation of the portfolio turnover rate. Instruments excluded from the calculation of portfolio turnover generally would include the futures contracts and option contracts in which the Fund invests because such contracts generally have a remaining maturity of less than one-year.

The value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund’s shares also is excluded from the calculation of the Fund’s portfolio turnover rate. As a result, the Fund’s reported portfolio turnover may be low despite relatively high portfolio activity which would, in turn, produce correspondingly greater expenses for the Fund, including brokerage commissions or dealer mark-ups and other transaction costs on the sale of securities and reinvestments in other securities. Generally, the higher the rate of portfolio turnover of a fund, the higher these transaction costs borne by the fund and its long-term shareholders. Such sales may result in the realization of taxable capital gains (including short-term capital gains, which, when distributed, are generally taxed to shareholders at ordinary income tax rates).

The Fund has not commenced operations as of the date of this SAI. Accordingly, no portfolio turnover information is provided.

## **INFORMATION ABOUT THE INDEX PROVIDER AND DISCLAIMERS**

### **Index Provider.**

Dhandho Funds, LLC (“Dhandho”) is the index provider for the Fund. Dhandho acts as brand licensor for the Underlying Index. Dhandho is not responsible for the descriptions of the Underlying Index or the Fund that appear herein. Dhandho is not affiliated with the Trust, the Adviser or the Distributor.

Dhandho makes no representation or warranty, express or implied, to the owners of the Fund or any member of the public regarding the advisability of investing in securities or commodities generally or in the Fund particularly and does not guarantee the quality, accuracy or completeness of the Underlying Index or any Underlying Index data included therein or derived therefrom and assumes no liability in connection with their use. The Underlying Index is determined and composed without regard to Cambria or the Fund. Dhandho has no obligation to take the needs of Cambria, the Fund or the shareholders of the Fund into consideration in connection with the foregoing. Dhandho is not responsible for and has not participated in the determination of pricing or the timing of the issuance or sale of the Shares of the Fund or in the determination or calculation of the NAV of the Fund. Dhandho has no obligation or liability in connection with the administration or trading of the Fund.

Dhandho does not guarantee the accuracy and/or completeness of the Underlying Index or any data included therein, and Dhandho shall have no liability for any errors, omissions, or interruptions therein. Dhandho makes no warranty, express or implied, as to results to be obtained by Cambria, the Fund, Fund shareholders or any other person or entity from the use of the Underlying Index or any data included therein. Dhandho makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Underlying Index or any data included therein. Without limiting any of the foregoing, in no event shall Dhandho have any liability for any special, punitive, indirect, or consequential damages (including lost profits) arising out of matters relating to the use of the Underlying Index, even if notified of the possibility of such damages.

Cambria does not guarantee the accuracy and/or the completeness of the Underlying Index or any data included therein, and Cambria shall have no liability for any errors, omissions or interruptions therein. Cambria makes no warranty, express or implied, as to results to be obtained by the Fund, owners of the Shares of the Fund or any other person or entity from the use of the Underlying Index or any data included therein. Cambria makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Underlying Index or any data included therein. Without limiting any of the foregoing, in no event shall Cambria have any liability for any special, punitive, direct, indirect, or consequential damages (including lost profits) arising out of matters relating to the use of the Underlying Index, even if notified of the possibility of such damages.

**MANAGEMENT OF THE FUND**

**Trustees and Officers**

The business and affairs of the Trust are managed by its officers under the oversight of its Board. The Board sets broad policies for the Trust and may appoint Trust officers. The Board oversees the performance of Cambria and the Trust’s other service providers. Each Trustee serves until his or her successor is duly elected or appointed and qualified.

The Board is comprised of three Trustees. One Trustee and certain of the officers of the Trust are directors, officers or employees of Cambria. The other Trustees are not “interested persons” (as defined in Section 2(a)(19) of the Investment Company Act) of the Trust (the “Independent Trustees”). The fund complex includes all Funds advised by Cambria (the “Fund Complex”).

The Trustees, their age (by year of birth), term of office and length of time served, their principal business occupations during the past five years, the number of portfolios in the Fund Complex overseen and other directorships, if any, held by each Trustee, are shown below. The officers, their age (by year of birth), term of office and length of time served and their principal business occupations during the past five years, are shown below. Unless noted otherwise, the address of each Trustee and each Officer is: c/o Cambria ETF Trust, 2321 Rosecrans Avenue, Suite 3225, El Segundo, California 90245.

<b>Name and Year of Birth</b>	<b>Position(s) Held with Trust, Term of Office, and Length of Time Served</b>	<b>Principal Occupation During Past 5 Years</b>	<b>Number of Funds in Fund Complex Overseen by Trustee</b>	<b>Other Directorships Held by Trustee During Past 5 Years</b>
<b>Independent Trustees</b>				
Eric Leake YOB: 1970	Trustee since 2013	Partner and Chief Investment Officer, Anchor Capital Management Group, Inc. (since 1996).	11	Board Member, National Association of Active Investment Management (NAAIM) (2008-2010).
Dennis G. Schmal YOB: 1947	Trustee since 2013	Self-employed consultant (since 2003).	11	Director, AssetMark (formerly Genworth) Mutual Funds (2007-present); Trustee, Grail Advisors ETF Trust (2009-2011); Director, Merriman Holdings Inc. (formerly MCF Corp.) (financial services) (2003-present); Director, Owens Realty Mortgage Inc. (real estate) (2013-present); Director and Chairman, Pacific Metrics Corporation (2005-2014) (educational services); Director and Chairman, Sitoa Global (2011-2013) (e-commerce); Director, Varian Semiconductor (2004-2011); Trustee, Wells Fargo GAI Hedge Funds (2008-present); Director, Blue Calypso (2015-present) (e-commerce).
<b>Interested Trustee*</b>				
Eric W. Richardson YOB: 1966	Trustee and President of the Trust since 2011	Co-founder and Chief Executive Officer, Cambria Investment Management, L.P. (2006-present); Chairman and President, Cambria ETF Trust (2013-present).	11	None

\* Mr. Richardson is an “interested person,” as defined by the Investment Company Act, because of his employment with and ownership interest in Cambria.

## Officers

Name and Year of Birth	Position(s) Held with Trust, Term of Office and Length of Time Served	Principal Occupation During Past 5 Years
Ryan DelGiudice YOB: 1990	Chief Compliance Officer since 2017	Vice President (2015-present), Manager (2013-2015), Cipperman Compliance Services; Chief Compliance Officer, Aspiration Funds (2014-present); Associate, Bank of New York Mellon (regulatory administration) (2012-2013).
Mebane Faber YOB: 1977	Vice President since 2012	Co-founder and Chief Investment Officer, Cambria Investment Management, L.P. (2006-present); Manager, Cambria Indices, LLC (2013 - present); Co-founder and Writer, Alphaclone (investing research website) (2008-present).
Eric Kleinschmidt YOB: 1968	Principal Financial Officer since 2016	Director of Fund Accounting at SEI since 2004.

## Additional Information About the Trustees

The following provides information additional to that set forth in the table above regarding other relevant qualifications, experience, attributes or skills applicable to each Trustee.

Eric Leake: Mr. Leake has extensive experience in the investment management industry as a partner and chief investment officer of an investment adviser.

Dennis G. Schmal: Mr. Schmal has extensive experience in the investment management industry, including as a member of senior management of the investment company audit practice at a large public accounting firm, as well as service on multiple boards of directors overseeing public companies, registered investment companies and private companies and funds.

Eric W. Richardson: Mr. Richardson has extensive experience in the investment management industry, including as a portfolio manager, and a corporate and securities attorney.

The Board has determined that each Trustee on an individual basis and in combination with the other Trustees is qualified to serve, and should serve, on the Board. To make this determination the Board considered a variety of criteria, none of which in isolation was controlling. Among other things, the Board considered each Trustee's experience, qualifications, attributes and skills.

## Board Structure

Mr. Richardson is considered to be an Interested Trustee and serves as Chairman of the Board. The Chairman's responsibilities include: setting an agenda for each meeting of the Board; presiding at all meetings of the Board and, if present, meetings of the Independent Trustees; and, serving as a liaison between the other Trustees, Trust officers, management personnel and counsel.

The Board believes that having an interested Chairman, who is familiar with Cambria and its operations, while also having two-thirds of the Board composed of Independent Trustees, strikes an appropriate balance that allows the Board to benefit from the insights and perspective of a representative of management while empowering the Independent Trustees with the ultimate decision-making authority. The Board has not appointed a lead Independent Trustee at this time. The Board does not believe that an independent Chairman or lead Independent Trustee would enhance the Board's effectiveness, as the relatively small size of the Board allows for diverse viewpoints to be shared and for effective communications between and among Independent Trustees and management so that meetings proceed efficiently. Independent Trustees have effective control over the Board's agenda because they form a majority of the Board and can request presentations and agenda topics at Board meetings.

The Board normally holds four regularly scheduled meetings each year, at least one of which is in person. The Board may hold special meetings, as needed, either in person or by telephone, to address matters arising between regular meetings. The Independent Trustees meet separately at each regularly scheduled in-person meeting of the Board; during a portion of each such separate meeting management is not present. The Independent Trustees may also hold special meetings, as needed, either in person or by telephone.

The Board conducts a self-assessment on an annual basis, as part of which it considers whether the structure of the Board and its Committees is appropriate under the circumstances. Based on such self-assessment, among other things, the Board considers whether its current structure is appropriate. As part of this self-assessment, the Board considers several factors, including the number of Funds overseen by the Board, their investment objectives, and the responsibilities entrusted to Cambria and other service providers with respect to the oversight of the day-to-day operations of the Trust and the Funds.

The Board sets broad policies for the Trust and may appoint Trust officers. The Board oversees the performance of Cambria and the Trust's other service providers. As part of its oversight function, the Board monitors Cambria's risk management, including, as applicable, its management of investment, compliance and operational risks, through the receipt of periodic reports and presentations. The Board has not established a standing risk committee. Rather, the Board relies on Trust officers, advisory personnel and service providers to manage applicable risks and report exceptions to the Board in order to enable it to exercise its oversight responsibility. To this end, the Board receives reports from such parties at least quarterly, including, but not limited to, investment and/or performance reports, distribution reports, Rule 12b-1 reports, valuation and internal controls reports. Similarly, the Board receives quarterly reports from the Trust's chief compliance officer ("CCO"), including, but not limited to, a report on the Trust's compliance program, and the Independent Trustees have an opportunity to meet separately each quarter with the CCO. The CCO typically provides the Board with updates regarding the Trust's compliance policies and procedures, including any enhancements to them. The Board expects all parties, including, but not limited to, Cambria, other service providers and the CCO, to inform the Board on an intra-quarter basis if a material issue arises that requires the Board's oversight.

The Board generally exercises its oversight as a whole, but has delegated certain oversight functions to an Audit Committee. The function of the Audit Committee is discussed in detail below.

## **Committees**

The Board currently has two standing committees: an Audit Committee and a Nominating Committee. Each Independent Trustee serves on each of these committees.

The purposes of the Audit Committee are to: (1) oversee generally the Fund's accounting and financial reporting policies and practices, their internal controls and, as appropriate, the internal controls of certain service providers; (2) oversee the quality, integrity, and objectivity of the Fund's financial statements and the independent audit thereof; (3) assist the full Board with its oversight of the Trust's compliance with legal and regulatory requirements that relate to the Fund's accounting and financial reporting, internal controls and independent audits; (4) approve, prior to appointment, the engagement of the Trust's independent auditors and, in connection therewith, to review and evaluate the qualifications, independence and performance of the Trust's independent auditors; and (5) act as a liaison between the Trust's independent auditors and the full Board. During the fiscal year ended April 30, 2016, the Audit Committee met three times.

The purposes of the Nominating Committee are, among other things, to: (1) identify and recommend for nomination candidates to serve as Trustees and/or on Board committees who are not “interested persons” as defined in Section 2(a)(19) of the Investment Company Act (“Interested Person”) of the Trust and who meet any independence requirements of Exchange Rule 5.3(k)(1) or the applicable rule of any other exchange on which shares of the Trust are listed; (2) evaluate and make recommendations to the full Board regarding potential trustee candidates who are Interested Persons of the Trust; and (3) review periodically the workload and capabilities of the Trustees and, as the Committee deems appropriate, to make recommendations to the Board if such a review suggests that changes to the size or composition of the Board and/or its committees are warranted. The Committee does not consider potential candidates for nomination identified by shareholders. During the fiscal year ended April 30, 2016, the Nominating Committee did not meet.

**Compensation of Trustees.** The Independent Trustees determine the amount of compensation that they receive. In determining compensation for the Independent Trustees, the Independent Trustees take into account a variety of factors including, among other things, their collective significant work experience (*e.g.*, in business and finance, government or academia). The Independent Trustees also recognize that these individuals’ advice and counsel are in demand by other organizations, that these individuals may reject other opportunities because of the time demands of their duties as Independent Trustees, and that they undertake significant legal responsibilities. The Independent Trustees also consider the compensation paid to independent board members of other registered investment company complexes of comparable size.

The Independent Trustees are paid \$7,500 per quarter for attendance at meetings of the Board and the Chairman of the Audit Committee receives an additional \$1,250 per quarter. The Trust’s officers and any interested Trustees receive no compensation directly from the Trust. All Trustees are reimbursed for their travel expenses and other reasonable out-of-pocket expenses incurred in connection with attending Board meetings. The Trust does not accrue pension or retirement benefits as part of the Fund’s expenses, and Trustees are not entitled to benefits upon retirement from the Board.

The following table reflects the compensation paid to the Trustees for the fiscal year ended April 30, 2016:

<b>Independent Trustees</b>	<b>Compensation*</b>	<b>Compensation Deferred*</b>	<b>Total Compensation from the Fund Complex Paid to Trustee*</b>
Eric Leake	\$30,000	\$0	\$30,000
Dennis G. Schmal	\$35,000	\$0	\$25,000
<b>Interested Trustee</b>			
Eric W. Richardson**	\$0	\$0	\$0

\* Trustee compensation is allocated across the series of the Fund Complex on the basis of assets under management. Under the Fund's Management Agreements, however, Cambria ultimately pays the compensation and expenses of the Trustees.

\*\* Mr. Richardson is an "interested person," as defined by the Investment Company Act, because of his employment with and ownership interest in Cambria.

**Equity Ownership of Trustees.** The Fund is new and, as of the date of this SAI, the Trustees did not own any Shares of the Fund.

As of December 31, 2015, none of the Independent Trustees or their immediate family members beneficially owned any securities in any investment adviser or principal underwriter of the Trust, or in any person (other than a registered investment company) directly or indirectly controlling, controlled by, or under common control with an investment adviser or principal underwriter of the Trust.

#### **Codes of Ethics**

The Board, on behalf of the Trust, has adopted a Code of Ethics pursuant to Rule 17j-1 under the Investment Company Act. In addition, Cambria and the Distributor each have adopted a Code of Ethics pursuant to Rule 17j-1. These Codes of Ethics (each a "Code of Ethics" and together the "Codes of Ethics") apply to the personal investing activities of trustees, directors, officers and certain employees ("access persons"). Rule 17j-1 and the Codes of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by access persons. Under each Code of Ethics, access persons are permitted to engage in personal securities transactions, but are required to report their personal securities transactions for monitoring purposes. In addition, certain access persons are required to obtain approval before investing in private placements and are prohibited from investing in IPOs. Copies of the Codes of Ethics are on file with the SEC, and are available to the public.

#### **Proxy Voting**

The Board has delegated to Cambria the responsibility to vote proxies related to the securities held in the Fund's portfolio. Under this authority, Cambria is required by the Board to vote proxies related to portfolio securities in the best interests of the Fund and its shareholders. Cambria will vote such proxies in accordance with its proxy policies and procedures, which are included in Appendix A to this SAI.

The Trust discloses its complete proxy voting record on Form N-PX annually. The Trust's most recent Form N-PX is available without charge, upon request, by calling +1-844-808-3557. The Trust's Form N-PX also is available on the SEC's website at [www.sec.gov](http://www.sec.gov).

**CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES**

Cambria owns all of the initial Shares issued by the Fund prior to the commencement of investment operations and the public launch of the Fund.

**INVESTMENT MANAGEMENT AND OTHER SERVICES**

**Investment Advisory Agreement**

Under an investment advisory agreement between Cambria and the Trust (“Management Agreement”), the Fund pays Cambria a fee at an annualized rate, which is calculated daily and paid monthly, based on its average daily net assets, set forth in the table below:

<b>Fund</b>	<b>Advisory Fee</b>
Dhandho Junoon ETF	0.75%

Cambria manages the investment and the reinvestment of the Fund’s assets, in accordance with its investment objective, policies, and limitations, subject to the general supervision and control of the Board. Cambria is a registered investment adviser under the Investment Advisers Act of 1940 and is a limited partnership organized under the laws of Delaware. The address of Cambria is 2321 Rosecrans Avenue, Suite 3225, El Segundo, California 90245. Mebane Faber, Eric Richardson, Angel Reyes, IV Descendants Trust and Sofia Reyes Descendants Trust are limited partners and Cambria GP, LLC is the general partner. Cambria GP, LLC is owned by Mebane Faber and Eric Richardson. Cambria was founded in 2006 and provides investment advisory services to registered and unregistered investment companies, individuals (including high net worth individuals), pensions and charitable organizations.

Under the Management Agreement, Cambria bears all of the costs of the Fund, except for the advisory fee, payments under the Fund’s 12b-1 plan, brokerage expenses, acquired fund fees and expenses, taxes, interest (including borrowing costs and dividend expenses on securities sold short), litigation expenses and other extraordinary expenses (including litigation to which the Trust or the Fund may be a party and indemnification of the Trustees and officers with respect thereto).

The Management Agreement provides that Cambria will not be liable for any error of judgment or mistake of law or for any loss suffered by the Trust in connection with the matters to which the Management Agreement relates, but will be liable to the Trust and its shareholders only for willful misfeasance, bad faith, or gross negligence on its part in the performance of its duties or from reckless disregard of its obligations or duties thereunder.

The Management Agreement also provides that Cambria may engage in other businesses, devote time and attention to any other business whether of a similar or dissimilar nature, and render investment advisory services to others.

The Management Agreement will remain in effect for two (2) years from its effective date and thereafter continue in effect for as long as its continuance is specifically approved at least annually, by (1) the vote of the Trustees or by a vote of a majority of the shareholders of the Fund, and (2) by the vote of a majority of the Trustees who are not parties to the Management Agreement or Interested Persons of any person thereto, cast in person at a meeting called for the purpose of voting on such approval. The Management Agreement provides that it may be terminated at any time, without the payment of any penalty, by the Board of Trustees or by a majority of the outstanding shares of the Fund, on 60 days’ written notice to Cambria, and by Cambria upon 60 days’ written notice and that it shall be automatically terminated if it is assigned.

## Custodian and Transfer Agent

Brown Brothers Harriman & Co. (“BBH”), located at 50 Post Office Square, Boston, Massachusetts 02109, serves as the Custodian and Transfer Agent of the Fund’s assets. As Custodian, BBH has agreed to: (1) make receipts and disbursements of money on behalf of the Fund, (2) collect and receive all income and other payments and distributions on account of the Fund’s portfolio investments, and (3) make periodic reports to the Fund concerning the Fund’s operations. BBH does not exercise any supervisory function over the purchase and sale of securities. As compensation for these services, the Custodian receives certain out-of-pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by Cambria from its fees.

As Transfer Agent, BBH has agreed to: (1) issue and redeem shares of the Fund in Creation Units, (2) make dividend and other distributions to shareholders of the Fund, (3) maintain shareholder accounts, and (4) make periodic reports to the Fund. As compensation for these services, the Transfer Agent receives certain out-of-pocket costs and transaction fees which are accrued daily and paid monthly by Cambria from its fees.

## Administrator

SEI Investments Global Funds Services (the “Administrator”), located at 1 Freedom Valley Drive, Oaks, Pennsylvania 19456, serves as the Administrator and Fund Accountant to the Fund. The Administrator provides the Fund with all required general administrative services, including, without limitation, clerical and general back office services; bookkeeping, internal accounting and secretarial services; the calculation of NAV; and the preparation and filing of all reports, updates to registration statements, and all other materials required to be filed or furnished by the Fund under federal and state securities laws. As compensation for these services, the Administrator receives certain out-of-pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by Cambria from its fees.

## PORTFOLIO MANAGERS

The following table provides information about the Cambria portfolio managers who have day-to-day responsibility for management of the Fund. The reporting information is provided as of September 30, 2016:

Type of Account	Number of Accounts Managed	Total Assets Managed (\$ millions)	Number of Accounts Managed for which Advisory Fee is Performance-Based	Assets Managed for which Advisory Fee is Performance-Based (\$ millions)
<b>Mebane Faber</b>				
Registered Investment Companies	8	\$292	n/a	n/a
Other Pooled Investment Vehicles	1	\$33	n/a	n/a
Other Accounts	8	\$5	n/a	n/a
<b>Eric Richardson</b>				
Registered Investment Companies	8	\$292	n/a	n/a
Other Pooled Investment Vehicles	1	\$33	n/a	n/a
Other Accounts	8	\$5	n/a	n/a

## **Potential Conflicts of Interest**

The portfolio managers' management of "other accounts" may give rise to potential conflicts of interest in connection with their management of the Fund's investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as the Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby the portfolio managers could favor one account over another. Another potential conflict could include the portfolio managers' knowledge about the size, timing and possible market impact of Fund trades, whereby a portfolio manager could use this information to the advantage of other accounts and to the disadvantage of the Fund. Cambria has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated. There can be no assurance, however, that these policies and procedures will be effective.

## **Compensation**

Each portfolio manager owns an equity interest in Cambria and their compensation is determined by the advisory fee revenue generated by the firm's assets under management. Thus, portfolio manager compensation is aligned with the interests of Cambria's clients, including the Fund and its investors, because it is in the portfolio managers' best interests to grow the assets of its clients, including the Fund, by delivering strong performance to each. The portfolio managers may also earn a bonus each year based on the profitability of Cambria.

## **PORTFOLIO TRANSACTIONS AND BROKERAGE**

### **Brokerage Transactions**

Portfolio changes will generally be implemented through in-kind transactions for Creation Units; however, Cambria may execute brokerage transactions for the Fund and the Fund may incur brokerage commissions, particularly during the early stages of the Fund's development or in the case of transactions involving realized losses. Also, the Fund may accept cash as part or all of an In-Kind Creation or Redemption Basket, in which case Cambria may need to execute brokerage transactions for the Fund. Generally, equity securities, including securities of underlying ETFs, are bought and sold through brokerage transactions for which commissions are payable. Purchases from underwriters will include the underwriting commission or concession, and purchases from dealers serving as market makers will include a dealer's mark-up or reflect a dealer's mark-down. Money market securities and other debt securities are usually bought and sold directly from the issuer or an underwriter or market maker for the securities. Generally, the Fund will not pay brokerage commissions for such purchases. When a debt security is bought from an underwriter, the purchase price will usually include an underwriting commission or concession. The purchase price for securities bought from dealers serving as market makers will similarly include the dealer's mark-up or reflect a dealer's mark-down. When the Fund executes transactions in the over-the-counter market, it will generally deal with primary market makers unless prices that are more favorable are otherwise obtainable.

In addition, Cambria may place a combined order, often referred to as “bunching,” for two or more accounts it manages, including the Fund, engaged in the purchase or sale of the same security or other instrument if, in its judgment, joint execution is in the best interest of each participant and will result in best price and execution. Transactions involving commingled orders are allocated in a manner deemed equitable to each account or Fund. Although it is recognized that, in some cases, the joint execution of orders could adversely affect the price or volume of the security that a particular account or the Fund may obtain, it is the opinion of Cambria that the advantages of combined orders outweigh the possible disadvantages of separate transactions. In addition, in some instances the Fund effecting the larger portion of a combined order may not benefit to the same extent as participants effecting smaller portions of the combined order. Nonetheless, Cambria believes that the ability of the Fund to participate in higher volume transactions will generally be beneficial to the Fund.

The Fund had not commenced operations as of the date of this SAI. Accordingly, for the fiscal year ended April 30, 2016, the Fund did not pay any brokerage commissions.

### **Brokerage Selection**

The Trust does not expect to use one particular broker-dealer to effect the Trust’s portfolio transactions. When one or more broker-dealers is believed capable of providing the best combination of price and execution, Cambria may not select a broker-dealer based on the lowest commission rate available for a particular transaction. In such cases, Cambria may pay a higher commission than otherwise obtainable from other brokers in return for brokerage or research services provided to Cambria consistent with Section 28(e) of the 1934 Act, which provides that Cambria may cause the Fund to pay a broker-dealer a commission for effecting a transaction in excess of the amount of commission another broker-dealer would have charged as long as Cambria makes a good faith determination that the amount of commission is reasonable in relation to the value of the brokerage and research services provided by the broker-dealer. To the extent Cambria obtains brokerage and research services that it otherwise would acquire at its own expense, Cambria may have an incentive to place a greater volume of transactions or pay higher commissions than would otherwise be the case.

Cambria will only obtain brokerage and research services from broker-dealers in arrangements that are consistent with Section 28(e) of the 1934 Act. The types of products and services that Cambria may obtain from broker-dealers through such arrangements will include research reports and other information on the economy, industries, sectors, groups of securities, individual companies, statistical information, political developments, technical market action, pricing and appraisal services, credit analysis, risk measurement analysis, performance and other analysis. Cambria may use products and services provided by brokers in servicing all of its client accounts and not all such products and services may necessarily be used in connection with the account that paid commissions to the broker-dealer providing such products and services. Any advisory or other fees paid to Cambria are not reduced as a result of the receipt of brokerage and research services.

In some cases Cambria may receive a product or service from a broker that has both a “research” and a “non-research” use. When this occurs, Cambria will make a good faith allocation between the research and non-research uses of the product or service. The percentage of the service that is used for research purposes may be paid for with brokerage commissions, while Cambria will use its own funds to pay for the percentage of the service that is used for non-research purposes. In making this good faith allocation, Cambria faces a potential conflict of interest, but Cambria believes that its allocation procedures are reasonably designed to appropriately allocate the anticipated use of such products and services to research and non-research uses.

The Fund had not commenced operations as of the date of this SAI. Accordingly, for the fiscal year ended April 30, 2016, the Fund did not pay any commissions on transactions directed to brokers pursuant to an agreement or understanding whereby the broker provides research or other brokerage services to Cambria.

#### **Brokerage with Fund Affiliates**

Although not expected, the Fund may execute brokerage or other agency transactions through registered broker-dealer affiliates of the Fund, Cambria, or the Distributor for a commission in conformity with the Investment Company Act, the 1934 Act and rules promulgated by the SEC. Under the Investment Company Act and the 1934 Act, affiliated broker-dealers are permitted to receive and retain compensation for effecting portfolio transactions for the Fund on an exchange if a written contract is in effect between the affiliate and the Fund expressly permitting the affiliate to receive and retain such compensation. These rules further require that commissions paid to the affiliate by the Fund for exchange transactions not exceed “usual and customary” brokerage commissions. The rules define “usual and customary” commissions to include amounts that are “reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time.” The Board, including those who are not “interested persons” of the Fund, has adopted procedures for evaluating the reasonableness of commissions paid to affiliates and reviews these procedures periodically.

The Fund had not commenced operations as of the date of this SAI. Accordingly, for the fiscal year ended April 30, 2016, the Fund did not pay any commissions to affiliated broker-dealers.

#### **Securities of “Regular Broker-Dealers”**

The Fund is required to identify any securities of its “regular brokers and dealers” (as such term is defined in the Investment Company Act) (or the parent of the regular broker-dealers) that the Fund may hold at the close of its most recent fiscal year. “Regular brokers and dealers” of the Trust are the ten brokers or dealers that, during the most recent fiscal year: (i) received the greatest dollar amounts of brokerage commissions from the Trust’s portfolio transactions; (ii) engaged as principal in the largest dollar amounts of portfolio transactions of the Trust; or (iii) sold the largest dollar amounts of the Trust’s shares.

The Fund had not commenced operations as of the date of this SAI. Accordingly, for the fiscal year ended April 30, 2016, the Fund did not hold any securities of its “regular brokers and dealers.”

#### **THE DISTRIBUTOR**

The Distributor is SEI Investments Distribution Co., 1 Freedom Valley Drive, Oaks, Pennsylvania 19456.

Shares will be continuously offered for sale by the Trust through the Distributor only in Creation Units, as described below under “Transactions in Creation Units.” Shares in less than Creation Units are not distributed by the Distributor. The Distributor also acts as agent for the Trust. The Distributor will deliver a Prospectus to persons purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor is a broker-dealer registered under the 1934 Act and a member of the Financial Industry Regulatory Authority, Inc. The Distributor has no role in determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund.

The Board has adopted a Distribution and Service Plan pursuant to Rule 12b-1 under the Investment Company Act (“Plan”). In accordance with its Plan, the Fund is authorized to pay an amount up to 0.25% of its average daily net assets each year for certain distribution-related activities. In addition, if the payment of management fees by the Fund is deemed to be indirect financing by the Fund of the distribution of its shares, such payment is authorized by the Plan. The Plan specifically recognizes that Cambria may use its legitimate profits to pay for expenses incurred in connection with providing services intended to result in the sale of Shares. Cambria may pay amounts to third parties for distribution or marketing services on behalf of the Fund.

The Plan was adopted in order to permit the implementation of the Fund’s method of distribution. No fees are currently paid by the Fund under the Plan, however, and there are no current plans to impose such fees. In the event such fees were to be charged, over time they would increase the cost of an investment in the Fund because they would be paid on an ongoing basis. If fees were charged under the Plan, the Trustees would receive and review at the end of each quarter a written report provided by the Distributor of the amounts expended under the Plan and the purpose for which such expenditures were made. The Plan is a compensation plan, which means that, if the Plan were activated, the Distributor would be compensated regardless of its expenses, as opposed to a reimbursement plan which would reimburse only for expenses incurred.

The Plan will remain in effect for a period of one year and is renewable from year to year with respect to the Fund, so long as its continuance is approved at least annually (1) by the vote of a majority of the Trustees and (2) by a vote of the majority of those Independent Trustees who have no direct or indirect financial interest in the Plan (“Rule 12b-1 Trustees”), cast in person at a meeting called for the purpose of voting on such approval. The Plan may not be amended to increase materially the amount of fees paid by the Fund unless such amendment is approved by an Investment Company Act majority vote of the outstanding shares and by the Fund Trustees in the manner described above. The Plan is terminable with respect to the Fund at any time by a vote of a majority of the Rule 12b-1 Trustees or by an Investment Company Act majority vote of the outstanding shares.

#### **Payments to Financial Intermediaries.**

The Fund, at its own expense, may pay additional compensation to financial intermediaries for shareholder-related services, including administrative, recordkeeping and shareholder communication services. In addition, pursuant to any applicable 12b-1 plan, the Fund may pay compensation to financial intermediaries for distribution-related services. For example, compensation may be paid to make Fund shares available to sales representatives and/or customers of a fund supermarket platform or a similar program sponsor or for services provided in connection with such fund supermarket platforms and programs. To the extent that the Fund pays all or a portion of such compensation, the payment is designed to compensate the financial intermediary for distribution activities and for providing services that would otherwise be provided by the Fund’s transfer agent and/or administrator.

Cambria or another affiliate of the Fund, out of its own resources and not as an expense of the Fund, may provide additional compensation to financial intermediaries. Such compensation is sometimes referred to as “revenue sharing.” Compensation received by a financial intermediary from Cambria or another Fund affiliate may include payments for shareholder servicing, marketing and/or training expenses incurred by the financial intermediary, including expenses incurred by the financial intermediary in educating its salespersons with respect to Fund shares. For example, such compensation may include reimbursements for expenses incurred in attending educational seminars regarding the Fund, including travel and lodging expenses. It may also cover costs incurred by financial intermediaries in connection with their efforts to sell Fund shares, including costs incurred in compensating registered sales representatives and preparing, printing and distributing sales literature.

The amount of compensation paid to different financial intermediaries may vary. The compensation paid to a financial intermediary may be based on a variety of factors, including average assets under management in accounts distributed and/or serviced by the financial intermediary, gross sales by the financial intermediary and/or the number of accounts serviced by the financial intermediary that invest in the Fund.

Any compensation received by a financial intermediary, whether from the Fund or its affiliates, and the prospect of receiving such compensation, may provide the financial intermediary with an incentive to recommend the shares of the Fund over other potential investments. Similarly, the compensation may cause financial intermediaries to elevate the prominence of the Fund within its organization by, for example, placing it on a list of preferred funds.

#### **ACCOUNTING AND LEGAL SERVICE PROVIDERS**

##### **Independent Registered Public Accounting Firm**

Cohen & Company, Ltd., located at 1350 Euclid Avenue, Suite 800, Cleveland, Ohio 44115, serves as the Fund's independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Fund.

##### **Legal Counsel**

Morgan, Lewis & Bockius LLP, located at 1111 Pennsylvania Avenue, N.W., Washington, D.C. 20004, serves as legal counsel to the Trust.

#### **ADDITIONAL INFORMATION CONCERNING SHARES**

##### **Organization and Description of Shares of Beneficial Interest**

The Trust is a Delaware statutory trust and registered open-end investment company. The Trust was organized on September 9, 2011 and has authorized capital of unlimited Shares of beneficial interest of no par value that may be issued in more than one class or series. Currently, the Trust consists of six actively managed series: the Cambria Tail Risk ETF, the Cambria Global Income and Currency Strategies ETF, Cambria Shareholder Yield ETF, Cambria Sovereign High Yield Bond ETF, Cambria Global Momentum ETF, and Cambria Value and Momentum ETF. The Trust also consists of five series that are passively managed and seek investment results that correspond (before fees and expenses) generally to the price and yield performance of their respective Underlying Index: the Dhandho Junoon ETF, Cambria Foreign Shareholder Yield ETF, Cambria Emerging Shareholder Yield ETF, Cambria Global Value ETF, and Cambria Global Asset Allocation ETF. Each of these Funds, except Global Income and Currency Strategies ETF, had commenced operations as of the date of this SAI. The Board may designate additional series and classify Shares of a particular series into one or more classes of that series.

Under Delaware law, the Trust is not required to hold an annual shareholders meeting if the Investment Company Act does not require such a meeting. Generally, there will not be annual meetings of Trust shareholders, but if requested in writing by shareholders of at least 25% of the outstanding Shares of the Fund, the Trust will call a meeting of shareholders of the Fund. Shareholders holding two-thirds of Shares outstanding of the Fund may remove Trustees from office by votes cast at a meeting of Trust shareholders or by written consent.

All Shares are freely transferable. Shares will not have preemptive rights or cumulative voting rights, and none of the Shares will have any preference to conversion, exchange, dividends, retirements, liquidation, redemption, or any other feature. Shares have equal voting rights. The Trust Instrument confers upon the Board the power, by resolution, to alter the number of Shares constituting a Creation Unit or to specify that Shares of the Fund may be individually redeemable. The Trust reserves the right to adjust the stock prices of Shares to maintain convenient trading ranges for investors. Any such adjustments would be accomplished through stock splits or reverse stock splits that would have no effect on the value of an investor's investment in the Fund.

The Trust Instrument of the Trust disclaims liability of the shareholders or the officers of the Trust for acts or obligations of the Trust that are binding only on the assets and property of the Trust. The Trust Instrument provides for indemnification out of the Fund's property for all loss and expense of the Fund's shareholders being held personally liable solely by reason of his or her being or having been a shareholder and not because of his or her acts or omissions or for some other reason. The risk of a Trust shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the Fund itself would not be able to meet the Trust's obligations and this risk should be considered remote.

If the Fund does not grow to a size to permit it to be economically viable, the Fund may cease operations. In such an event, shareholders may be required to liquidate or transfer their Shares at an inopportune time and shareholders may lose money on their investment.

### **Book Entry Only System**

The following information supplements and should be read in conjunction with the section in the Prospectus entitled "Book Entry."

DTC acts as Securities Depository for Shares. Shares of the Fund are represented by securities registered in the name of DTC or its nominee and deposited with, or on behalf of, DTC.

DTC, a limited purpose trust company, was created to hold securities of its participants (the "DTC Participants") and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by NYSE and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the "Indirect Participants").

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to herein as "Beneficial Owners") is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase and sale of Shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depositary Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the Shares of the Fund held by each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Fund distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all Shares. DTC or its nominee, upon receipt of any such distributions, shall immediately credit DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in Shares of the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of Shares held through such DTC Participants will be governed by standing instructions and customary practices, and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such Shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may decide to discontinue providing its service with respect to Shares at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions at a comparable cost.

#### **TRANSACTIONS IN CREATION UNITS**

The Fund sells and redeems Shares in Creation Units on a continuous basis through the Distributor, without a sales load, at the NAV next determined after receipt of an order in proper form on any Business Day. As of the date of this SAI, the NYSE observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The Fund will not issue fractional Creation Units. Shares of the Fund will only be issued against full payment, as further described in the Prospectus and this SAI.

A Creation Unit is an aggregation of 50,000 Shares. The Board may declare a split or a consolidation in the number of Shares outstanding of the Fund or Trust, and make a corresponding change in the number of Shares in a Creation Unit.

To purchase or redeem any Creation Units from the Fund, you must be, or transact through, an Authorized Participant. In order to be an Authorized Participant, you must be either a broker-dealer or other participant (“Participating Party”) in the Continuous Net Settlement System (“Clearing Process”) of the National Securities Clearing Corporation (“NSCC”) or a participant in DTC with access to the DTC system (“DTC Participant”), and you must execute an agreement (“Participant Agreement”) with the Distributor that governs transactions in the Fund’s Creation Units.

Transactions by an Authorized Participant that is a Participating Party using the NSCC system are referred to as transactions “through the Clearing Process.” Transactions by an Authorized Participant that is a DTC Participant using the DTC system are referred to as transactions “outside the Clearing Process.”

Investors who are not Authorized Participants but want to transact in Creation Units may contact the Distributor for the names of Authorized Participants. An Authorized Participant may require investors to enter into a separate agreement to transact through it for Creation Units and may require orders for purchases of shares placed with it to be in a particular form. Investors should be aware that their broker may not be an Authorized Participant and, therefore, may need to place any order to purchase or redeem Creation Units through another broker or person that is an Authorized Participant, which may result in additional charges. There are expected to be a limited number of Authorized Participants at any one time.

Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement. Market disruptions and telephone or other communication failures may impede the transmission of orders.

### **Purchasing Creation Units**

**Fund Deposit.** The consideration for a Creation Unit of the Fund is the Fund Deposit. The Fund Deposit will consist of the In-Kind Creation Basket and Cash Component, or an all cash payment (“Cash Value”), as determined by Cambria to be in the best interest of the Fund. Because any short positions in the Fund’s portfolio cannot be transferred in-kind, they will be represented by cash in the Cash Component and not in the In-Kind Creation Basket.

The Cash Component will typically include a “Balancing Amount” reflecting the difference, if any, between the NAV of a Creation Unit and the market value of the securities in the In-Kind Creation Basket. If the NAV per Creation Unit exceeds the market value of the securities in the In-Kind Creation Basket, the purchaser pays the Balancing Amount to the Fund. By contrast, if the NAV per Creation Unit is less than the market value of the securities in the In-Kind Creation Basket, the Fund pays the Balancing Amount to the purchaser. The Balancing Amount ensures that the consideration paid by an investor for a Creation Unit is exactly equal to the value of the Creation Unit.

The Transfer Agent, in a portfolio composition file sent via the NSCC, generally makes available on each Business Day, immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time), a list of the names and the required number of shares of each security in the In-Kind Creation Basket to be included in the current Fund Deposit for the Fund (based on information about the Fund’s portfolio at the end of the previous Business Day) (subject to amendment or correction). If applicable, the Transfer Agent, through the NSCC, also makes available on each Business Day, the estimated Cash Component or Cash Value, effective through and including the previous Business Day, per Creation Unit.

The announced Fund Deposit is applicable, subject to any adjustments as described below, for purchases of Creation Units of the Fund until such time as the next-announced Fund Deposit is made available. From day to day, the composition of the In-Kind Creation Basket may change as, among other things, corporate actions and investment decisions by Cambria are implemented for the Fund's portfolio. All questions as to the composition of the In-Kind Creation Basket and the validity, form, eligibility, and acceptance for deposit of any securities shall be determined by the Fund, and the Fund's determination shall be final and binding. The Fund reserves the right to accept a nonconforming (*i.e.*, custom) Fund Deposit.

Payment of any stamp duty or the like shall be the sole responsibility of the Authorized Participant purchasing a Creation Unit. The Authorized Participant must ensure that all Deposit Securities properly denote change in beneficial ownership.

*Cash in lieu.* The Fund may, in its sole discretion, permit or require the substitution of an amount of cash ("cash in lieu") to be added to the Cash Component to replace any security in the In-Kind Creation Basket. The Fund may permit or require cash in lieu:

- (a) in the case of bonds, for minor differences when it is impossible to break up bonds beyond certain minimum sizes needed for transfer and settlement;
- (b) for minor differences when rounding is necessary to eliminate fractional shares or lots that are not tradeable round lots;
- (c) TBA Transactions, short position and other positions that cannot be transferred in kind will be excluded from the Fund Deposit instruments;
- (d) to the extent the Fund determines, on a given Business Day, to use a representative sampling of the Fund's portfolio; or
- (e) for temporary periods, to effect changes in the Fund's portfolio as a result of the rebalancing of its Underlying Index.

In addition, purchases of Creation Units may be made in whole or in part on a cash basis, rather than in kind, under the following circumstances:

- (a) to the extent there is a Balancing Amount;
- (b) if, on a given Business Day, the Fund announces before the open of trading that all purchases or all purchases and redemptions on that day will be made entirely in cash;
- (c) if, upon receiving a purchase order from an Authorized Participant, the Fund determines to require the purchase to be made entirely in cash;
- (d) if, on a given Business Day, the Fund requires all Authorized Participants purchasing Shares on that day to deposit cash in lieu of some or all of the Fund Deposit instruments solely because:
  - (i) such instruments are not eligible for transfer either through the NSCC or DTC; or
  - (ii) in the case of the Fund's foreign holdings, such instruments are not eligible for trading due to local trading restrictions, local restrictions on securities transfers or other similar circumstances;

(e) if the Fund permits an Authorized Participant to deposit cash in lieu of some or all of the Fund Deposit instruments because such instruments are not available in sufficient quantity; or

(f) if the Fund permits a “custom” order, which is an order in which an Authorized Participant is permitted to deposit cash in lieu of some or all of the Fund Deposit instruments because such instruments are not eligible for trading by an Authorized Participant or the investor on whose behalf the Authorized Participant is acting.

The Fund will comply with the federal securities laws in accepting securities in the In-Kind Creation Basket, including the securities in the In-Kind Creation Basket that are sold in transactions that would be exempt from registration under the 1933 Act. All orders involving cash in lieu are considered to be “custom orders.”

**Order Cut-Off Time.** For an order involving a Creation Unit to be effectuated at the Fund’s NAV on a particular day, it must be received by the Distributor by or before the deadline for such order (“Order Cut-Off Time”). The Order Cut-Off Time for creation and redemption orders for the Fund is generally expected to be 4:00 p.m. Eastern time for In-Kind Creation and Redemption Baskets, and 3:00 p.m. Eastern time for Cash Value transactions. Accordingly, In-Kind Creation and Redemption Baskets are expected to be accepted until the close of regular trading on the Exchange on each Business Day, which is usually 4:00 p.m. Eastern time. On days when the Exchange or bond markets close earlier than normal (such as the day before a holiday), the Order Cut-Off Time is expected to track the Exchange closing and be similarly earlier than normal.

Custom orders typically clear outside the Clearing Process and, therefore, like other orders outside the Clearing Process, may need to be transmitted early on the relevant Business Day to be effectuated at that day’s NAV. A custom order may be placed when, for example, an Authorized Participant cannot transact in a security in the In-Kind Creation or Redemption Basket and additional cash is included in a Fund Deposit or Fund Redemption in lieu of such security. Custom orders may be required to be received by the Distributor by 3:00 p.m. Eastern time to be effectuated based on the Fund’s NAV on that Business Day.

In all cases, cash and securities should be transferred to the Fund by the “Settlement Date,” which is generally the Business Day immediately following the Transmittal Date for cash and the third Business Day following the Transmittal Date for securities. Persons placing custom orders or orders involving Cash Value should be aware of time deadlines imposed by intermediaries, such as DTC and/or the Federal Reserve Bank wire system, which may delay the delivery of cash and securities by the Settlement Date.

**Placement of Creation Orders.** All purchase orders must be placed by or through an Authorized Participant. To order a Creation Unit, an Authorized Participant must submit an irrevocable purchase order to the Distributor. In-kind (portions of) purchase orders will be processed through the Clearing Process when it is available. The Clearing Process is an enhanced clearing process that is available only for certain securities and only to DTC Participants that are also participants in the Clearing Process of the NSCC. In-kind (portions of) purchase orders not subject to the Clearing Process will go through a manual clearing process run by DTC. Fund Deposits that include government securities must be delivered through the Federal Reserve Bank wire transfer system (“Federal Reserve System”). Fund Deposits that include cash may be delivered through the Clearing Process or the Federal Reserve System. Certain orders for the Fund may be made outside the Clearing Process. In-kind deposits of securities for such orders must be delivered through the Federal Reserve System (for government securities) or through DTC (for corporate securities).

**Orders Using Clearing Process.** In connection with creation orders made through the Clearing Process, the Distributor transmits, on behalf of the Authorized Participant, such trade instructions as are necessary to effect the creation order. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Fund Deposit to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Units through the Clearing Process is deemed received by the Distributor on the Business Day the order is placed ("Transmittal Date") if (i) such order is received by the Distributor by the Closing Time on such Transmittal Date and (ii) all other procedures set forth in the Participant Agreement are properly followed. Cash Components will be delivered using either the Clearing Process or the Federal Reserve System, as described below.

**Orders Outside Clearing Process.** Fund Deposits made outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of securities and cash directly through DTC. With respect to such orders, the Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of securities in the In-Kind Creation Basket (whether standard or custom) through DTC to the relevant Trust account by 11:00 a.m., Eastern time, (the "DTC Cut-Off Time") on the Business Day immediately following the Transmittal Date. The amount of cash equal to the Cash Component, along with any cash in lieu and Transaction Fee, must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than 12:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date. The delivery of corporate securities through DTC must occur by 3:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date. The delivery of government securities through the Federal Reserve System must occur by 3:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date.

An order to create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor by the Closing Time on such Transmittal Date and (ii) all other procedures set forth in the Participant Agreement are properly followed. If the Custodian does not receive both the required In-Kind Creation Basket by the DTC Cut-Off Time and the Cash Component by the appointed time, such order may be canceled. Upon written notice to the Distributor, a canceled order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then-current In-Kind Creation Basket and Cash Component. Except as provided in Appendix B, the delivery of Creation Units so created will occur no later than the third Business Day following the day on which the order is deemed received by the Distributor. Authorized Participants that submit a canceled order will be liable to the Fund for any losses resulting therefrom.

Orders involving foreign securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable purchase order, the Distributor will notify Cambria and the Custodian of such order. The Custodian, who will have caused the appropriate local sub-custodian(s) of the Fund to maintain an account into which an Authorized Participant may deliver the Fund Deposit (or cash in lieu), with adjustments determined by the Fund, will then provide information of the order to such local sub-custodian(s). The Authorized Participant must also make available on or before the Settlement, by means satisfactory to the Fund, immediately available or same day funds in U.S. dollars estimated by the Fund to be sufficient to pay the Cash Component and Transaction Fee.

While, as stated above, Creation Units are generally delivered no later than the third Business Day following the day on which the order is deemed received by the Distributor, as discussed in Appendix B, the Fund, which may invest in foreign securities, may settle Creation Unit transactions on a basis other than the one described above in order to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates (that is the last day the holder of a security can sell the security and still receive dividends payable on the security), and in certain other circumstances.

**Acceptance of Orders for Creation Units.** The Trust reserves the absolute right to reject a creation order transmitted to it by the Distributor in respect of the Fund if: (i) the order is not in proper form; (ii) the investor(s), upon obtaining the Shares, would own 80% or more of the currently outstanding Shares of the Fund; (iii) the securities delivered do not conform to the In-Kind Creation Basket for the relevant date; (iv) acceptance of the Fund Deposit would have adverse tax consequences to the Fund; (v) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (vi) acceptance of the Fund Deposit would otherwise, in the discretion of the Trust, the Fund or Cambria, have an adverse effect on the Trust, the Fund or the rights of beneficial owners; or (vii) in the event that circumstances that are outside the control of the Trust, Custodian, Distributor and Cambria make it practically impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems resulting in telephone, telecopy and computer failures; fires, floods or extreme weather conditions; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, Cambria, the Distributor, DTC, NSCC, the Custodian or sub-custodian or any other participant in the creation process; and similar extraordinary events. The Distributor shall notify an Authorized Participant of its rejection of the order. The Fund, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits, and they shall not incur any liability for the failure to give any such notification.

**Issuance of a Creation Unit.** Once the Fund has accepted a creation order, upon next determination of the Fund's NAV, the Fund will confirm the issuance of a Creation Unit, against receipt of payment, at such NAV. The Distributor will transmit a confirmation of acceptance to the Authorized Participant that placed the order.

Except as provided below, a Creation Unit will not be issued until the Fund obtains good title to the In-Kind Creation Basket securities and the Cash Component, along with any cash in lieu and Transaction Fee. Except as provided in Appendix B, the delivery of Creation Units will generally occur no later than the third Business Day following the Transmittal Date for securities.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

With respect to orders involving foreign securities, when the applicable local sub-custodian(s) has confirmed to the Custodian that the In-Kind Creation Basket (or cash in lieu) has been delivered to the Fund's account at the applicable sub-custodian(s), the Distributor and Cambria shall be notified of such delivery, and the Fund will issue and cause the delivery of the Creation Unit.

Creation Units may be created in advance of receipt by the Trust of all or a portion of the applicable In-Kind Creation Basket, provided the purchaser tenders an initial deposit consisting of any available securities in the In-Kind Creation Basket and cash equal to the sum of the Cash Component and at least 115% of the market value, as adjusted from time to time by Cambria, of the In-Kind Creation Basket securities not delivered ("Additional Cash Deposit"). Such initial deposit will have a value greater than the NAV of the Creation Unit on the date the order is placed. The order shall be deemed to be received on the Transmittal Date provided that it is placed in proper form prior to 4:00 p.m., Eastern time, on such date, and federal funds in the appropriate amount are deposited with the Custodian by the DTC Cut-Off Time the following Business Day. If the order is not placed in proper form by 4:00 p.m., Eastern time, or federal funds in the appropriate amount are not received by the DTC Cut-Off Time the next Business Day, then the order will be canceled or deemed unreceived and the Authorized Participant effectuating such transaction will be liable to the Fund for any losses resulting therefrom.

To the extent securities in the In-Kind Creation Basket remain undelivered, pending delivery of such securities additional cash will be required to be deposited with the Trust as necessary to maintain an Additional Cash Deposit equal to at least 115% (as adjusted by Cambria) of the daily marked-to-market value of the missing securities. To the extent that either such securities are still not received by 1:00 p.m., Eastern time, on the third Business Day following the day on which the purchase order is deemed received by the Distributor or a marked-to-market payment is not made within one Business Day following notification to the purchaser and/or Authorized Participant that such a payment is required, the Trust may use the cash on deposit to purchase the missing securities, and the Authorized Participant effectuating such transaction will be liable to the Fund for any costs incurred therein or losses resulting therefrom, including any Transaction Fee, any amount by which the actual purchase price of the missing securities exceeds the Additional Cash Deposit or the market value of such securities on the day the purchase order was deemed received by the Distributor, as well as brokerage and related transaction costs. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing securities have been received by the Trust. The delivery of Creation Units so created will occur no later than the third Business Day following the day on which the purchase order is deemed received by the Distributor.

### Transaction Fees

To compensate the Trust for costs incurred in connection with creation and redemption transactions, investors will be required to pay to the Trust a Transaction Fee as follows:

Fund	Standard Transaction Fee	Variable Charge
<b>Dhandho Junoon ETF</b>	\$500*	None

\* The Transaction Fee may be higher for transactions outside the Clearing Process.

The Standard Transaction Fee applies to in-kind purchases of the Fund effected through the Clearing Process on any Business Day, regardless of the number of Creation Units purchased or redeemed that day (assuming, in the case of multiple orders on the same day, that the orders are received at or near the same time). A Transaction Fee of up to four times the standard fee may apply to creation and redemption transactions that occur outside the Clearing Process. The Transaction Fee for redemptions of Creation Units will not exceed 2% of the value of the Creation Unit(s) redeemed.

Cambria may adjust the Transaction Fee from time to time. The Standard Creation/Redemption Transaction Fee is based, in part, on the number of holdings in the Fund's portfolio and may be adjusted on a quarterly basis if the number of holdings increase. Investors will also be responsible for the costs associated with transferring the securities in the In-Kind Creation (and Redemption) Baskets to (and from) the account of the Trust. Further, investors who, directly or indirectly, use the services of a broker or other intermediary to compose a Creation Unit in addition to an Authorized Participant to effect a transaction in Creation Units may be charged an additional fee for such services.

**Cash Purchase Method.** When cash purchases of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind purchases. In the case of a cash purchase, the investor must pay the cash equivalent of the Fund Deposit. In addition, cash purchases may be subject to Transaction Fees.

## Redeeming Creation Units

**Fund Redemptions.** Fund Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Fund through the Transfer Agent and only on a Business Day. The redemption proceeds for a Creation Unit will consist of the In-Kind Redemption Basket and a Cash Redemption Amount, or an all cash payment (“Cash Value”), in all instances equal to the value of a Creation Unit. Because short positions cannot be transferred in kind, however, any short positions in the Fund’s portfolio will be represented by cash in the Cash Redemption Amount and not in the In-Kind Redemption Basket.

There can be no assurance that there will be sufficient liquidity in Shares in the secondary market to permit assembly of a Creation Unit. In addition, investors may incur brokerage and other costs in connection with assembling a Creation Unit.

The Cash Redemption Amount will typically include a Balancing Amount, reflecting the difference, if any, between the NAV of a Creation Unit and the market value of the securities in the In-Kind Redemption Basket. If the NAV per Creation Unit exceeds the market value of the securities in the In-Kind Redemption Basket, the Fund pays the Balancing Amount to the redeeming investor. By contrast, if the NAV per Creation Unit is less than the market value of the securities in the In-Kind Redemption Basket, the redeeming investor pays the Balancing Amount to the Fund.

The composition of the In-Kind Creation Basket will normally be the same as the composition of the In-Kind Redemption Basket. Otherwise, the In-Kind Redemption Basket will be made available by Cambria or the Transfer Agent. The Fund reserves the right to accept a nonconforming (*i.e.*, custom) Fund Redemption.

In lieu of an In-Kind Redemption Basket and Cash Redemption Amount, Creation Units may be redeemed consisting solely of cash in an amount equal to the NAV of a Creation Unit, which amount is referred to as the Cash Value. If applicable, information about the Cash Value will be made available by Cambria or the Transfer Agent.

From day to day, the composition of the In-Kind Redemption Basket may change as, among other things, corporate actions are implemented for the Fund’s portfolio. All questions as to the composition of the In-Kind Redemption Basket and the validity, form, eligibility, and acceptance for deposit of any securities shall be determined by the Fund, and the Fund’s determination shall be final and binding.

The right of redemption may be suspended or the date of payment postponed: (i) for any period during which the NYSE is closed (other than customary weekend and holiday closings); (ii) for any period during which trading on the NYSE is suspended or restricted; (iii) for any period during which an emergency exists as a result of which disposal of the Shares or determination of the Fund’s NAV is not reasonably practicable; or (iv) in such other circumstances as permitted by the SEC, including as described below.

*Cash in lieu.* The Fund may, in its sole discretion, permit or require the substitution of an amount of cash to be added to the Cash Redemption Amount to replace any security in the In-Kind Redemption Basket. The Fund may permit or require cash in lieu:

- (a) in the case of bonds, for minor differences when it is impossible to break up bonds beyond certain minimum sizes needed for transfer and settlement;

- (b) for minor differences when rounding is necessary to eliminate fractional shares or lots that are not tradeable round lots;
- (c) TBA Transactions, short position and other positions that cannot be transferred in kind will be excluded from the Fund Redemption instruments;
- (d) to the extent the Fund determines, on a given Business Day, to use a representative sampling of the Fund's portfolio; or
- (e) for temporary periods, to effect changes in the Fund's portfolio as a result of the rebalancing of its Underlying Index.

In addition, redemptions of Creation Units may be made in whole or in part on a cash basis, rather than in kind, under the following circumstances:

- (a) to the extent there is a Balancing Amount;
- (b) if, on a given Business Day, the Fund announces before the open of trading that all redemptions or all purchases and redemptions on that day will be made entirely in cash;
- (c) if, upon receiving a redemption order from an Authorized Participant, the Fund determines to require the redemption to be made entirely in cash;
- (d) if, on a given Business Day, the Fund requires all Authorized Participants redeeming Shares on that day to receive cash in lieu of some or all of the Fund Redemption instruments solely because:
  - (i) such instruments are not eligible for transfer either through the NSCC or DTC; or
  - (ii) in the case of the Fund's foreign holdings, such instruments are not eligible for trading due to local trading restrictions, local restrictions on securities transfers or other similar circumstances; or
- (e) if the Fund permits a "custom" order, which is an order in which an Authorized Participant is permitted to receive cash in lieu of some or all of the Fund Redemption instruments because:
  - (i) such instruments are not eligible for trading by an Authorized Participant or the investor on whose behalf the Authorized Participant is acting; or
  - (ii) a holder of Shares of the Fund's foreign holdings would be subject to unfavorable income tax treatment if the holder receives redemption proceeds in kind.

The Fund will comply with the federal securities laws in satisfying redemptions with the applicable In-Kind Redemption Basket, including the securities in the In-Kind Redemption Basket that are sold in transactions that would be exempt from registration under the 1933 Act. All redemption orders involving cash in lieu are considered to be "custom redemptions."

**Placement of Redemption Orders.** Redemptions must be placed to the Transfer Agent through the Distributor. In addition, redemption orders must be processed either through the DTC process or the Clearing Process. To redeem a Creation Unit, an Authorized Participant must submit an irrevocable redemption order to the Distributor.

An Authorized Participant submitting a redemption order is deemed to represent to the Fund that it or, if applicable, the investor on whose behalf it is acting, (i) owns outright or has full legal authority and legal beneficial right to tender for redemption the Creation Unit to be redeemed and can receive the entire proceeds of the redemption, and (ii) all of the Shares in the Creation Unit to be redeemed have not been borrowed, loaned or pledged to another party nor are they the subject of a repurchase agreement, securities lending agreement or such other arrangement which would preclude the delivery of such Shares to the Fund. The Fund reserves the absolute right, in its sole discretion, to verify these representations, but will typically require verification in connection with higher levels of redemption activity and/or short interest in the Fund. If the Authorized Participant, upon receipt of a verification report, does not provide sufficient verification of the requested representations, the redemption order will not be considered to be in proper form and may be rejected by the Fund.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

**Placement of Redemption Orders Using Clearing Process.** Orders to redeem Creation Units through the Clearing Process are deemed received by the Trust on the Transmittal Date if (i) such order is received by the Transfer Agent not later than the Order Cut-Off Time on such Transmittal Date, and (ii) all other procedures set forth in the Participant Agreement are properly followed. Orders deemed received will be effectuated based on the NAV of the Fund as next determined. An order to redeem Creation Units using the Clearing Process made in proper form but received by the Trust after the Order Cut-Off Time will be deemed received on the next Business Day and will be effected at the NAV next determined on such next Business Day. In connection with such orders, the Distributor transmits on behalf of the Authorized Participant such trade instructions as are necessary to effect the redemption. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Creation Unit(s) to the Fund, together with such additional information as may be required by the Distributor. Cash Redemption Amounts will be delivered using either the Clearing Process or the Federal Reserve System. The applicable In-Kind Redemption Basket and the Cash Redemption Amount will be transferred to the investor by the third NSCC business day following the date on which such request for redemption is deemed received.

**Placement of Redemption Orders Outside Clearing Process.** Orders to redeem Creation Units outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Units will instead be effected through transfer of Shares directly through DTC. Such orders are deemed received by the Trust on the Transmittal Date if: (i) such order is received by the Transfer Agent not later than the Order Cut-Off Time on the Transmittal Date; (ii) such order is accompanied or followed by the delivery of both (a) the Creation Unit(s), which delivery must be made through DTC to the Custodian no later than the DTC Cut-Off Time on the Business Day immediately following the Transmittal Date and (b) the Cash Redemption Amount by 12:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date; and (iii) all other procedures set forth in the Participant Agreement are properly followed. After the Trust has deemed such an order received, the Trust will initiate procedures to transfer, and expect to deliver, the requisite In-Kind Redemption Basket and/or any Cash Redemption Amount owed to the redeeming party by the third Business Day following the Transmittal Date on which such redemption order is deemed received by the Trust.

Orders involving foreign securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable redemption order, the Distributor will notify Cambria and the Custodian. The Custodian will then provide information of the redemption to the Fund's local sub-custodian(s). The redeeming Authorized Participant, or the investor on whose behalf it is acting, will have established appropriate arrangements with a broker-dealer, bank or other custody provider in each jurisdiction in which the securities are customarily traded and to which such securities (and any cash in lieu) can be delivered from the Fund's accounts at the applicable local sub-custodian(s).

The calculation of the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received upon redemption will be made by the Custodian computed on the Business Day on which a redemption order is deemed received by the Trust. Therefore, if a redemption order in proper form is submitted to the Transfer Agent by a DTC Participant or an Authorized Participant with the ability to transact through the Federal Reserve System, as applicable, not later than Closing Time on the Transmittal Date, and the requisite number of Shares of the Fund are delivered to the Custodian prior to the DTC Cut-Off-Time, then the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received will be determined by the Custodian on such Transmittal Date. If, however, either: (i) the requisite number of Shares of the Fund are not delivered by the DTC Cut-Off-Time, as described above, or (ii) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Transmittal Date. In such case, the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received will be computed on the Business Day following the Transmittal Date provided that the Fund Shares of the Fund are delivered through DTC to the Custodian by 11:00 a.m., Eastern time, the following Business Day pursuant to a properly submitted redemption order.

The Authorized Participant may request the redeeming beneficial owner of the Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of shares or delivery instructions.

**Delivery of Redemption Basket.** Once the Fund has accepted a redemption order, upon next determination of the Fund's NAV, the Fund will confirm the issuance of an In-Kind Redemption Basket, against receipt of the Creation Unit(s) at such NAV, any cash in lieu and Transaction Fee. A Creation Unit tendered for redemption and the payment of the Cash Redemption Amount, any cash in lieu and Transaction Fee will be effected through DTC. The Authorized Participant, or the investor on whose behalf it is acting, will be recorded on the book-entry system of DTC.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

**Cash Redemption Method.** When cash redemptions of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind redemptions. In the case of a cash redemption, the investor will receive the cash equivalent of the In-Kind Redemption Basket minus any Transaction Fees.

### **Settlement of Foreign Securities and Regular Foreign Holidays**

The Fund generally intends to effect deliveries of Creation Units and portfolio securities on a basis of the Transmittal Date ("T") plus three Business Days (*i.e.*, days on which the national securities exchange is open) ("T+3"). The Fund may effect deliveries of Creation Units and portfolio securities on a basis other than T+3 in order to accommodate local holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates or under certain other circumstances. Given that foreign securities settle in accordance with the normal rules of settlement of such securities in the applicable foreign market, coupled with foreign market holiday schedules, the Settlement Date may be up to 14 calendar days after the Transmittal Date in certain circumstances.

The ability of the Trust to effect in-kind creations and redemptions within three Business Days of receipt of an order in good form is subject, among other things, to the condition that, within the time period from the date of the order to the date of delivery of the securities, there are no days that are holidays in the applicable foreign market. In such cases, the local market settlement procedures will not commence until the end of the local holiday periods. For every occurrence of one or more intervening holidays in the applicable foreign market that are not holidays observed in the U.S. equity market, the redemption settlement cycle will be extended by the number of such intervening holidays. In addition to holidays, other unforeseeable closings in a foreign market due to emergencies may also prevent the Trust from delivering securities within normal settlement periods. The proclamation of new holidays, the treatment by market participants of certain days as "informal holidays" (*e.g.*, days on which no or limited securities transactions occur, as a result of substantially shortened trading hours), the elimination of existing holidays or changes in local securities delivery practices could affect the information set forth herein at some time in the future.

Because the Fund's portfolio securities may trade on days that the Fund's Exchange is closed or on days that are not Business Days for the Fund, Authorized Participants may not be able to redeem their Shares, or to purchase and sell Shares on the Exchange, on days when the NAV of the Fund could be significantly affected by events in the relevant non-U.S. markets.

A schedule of regular foreign holidays applicable to the Fund is included in Appendix B.

#### **DETERMINATION OF NET ASSET VALUE**

The net asset value, or NAV, of Shares is calculated each business day as of the close of regular trading on the NYSE, generally 4:00 p.m. Eastern time. The Fund's NAV per Share is computed by dividing the net assets by the number of Shares outstanding. For further information, see the "Net Asset Value" section of the Prospectus, which is incorporated by reference here.

#### **TAXATION**

The following supplements the tax information contained in the Prospectus.

The Fund intends to qualify for and has elected or intends to elect to be treated as a separate regulated investment company (a "RIC") under Subchapter M of the Code. As a RIC, the Fund will not be subject to U.S. Federal income tax on the portion of its taxable investment income and capital gains that it distributes to its shareholders. To qualify for treatment as a RIC, a company must annually distribute at least 90% of its net investment company taxable income (which includes dividends, interest and net short-term capital gains) and meet several other requirements relating to the nature of its income (the "Qualifying Income Test") and the diversification of its assets (the "Asset Test"). If the Fund fails to qualify for any taxable year as a RIC, all of its taxable income will be subject to tax at regular corporate income tax rates without any deduction for distributions to shareholders, and such distributions generally will be taxable to shareholders as ordinary dividends to the extent of the Fund's current and accumulated earnings and profits.

The Fund is treated as a separate corporation for federal income tax purposes. The Fund therefore is considered to be a separate entity in determining its treatment under the rules for RICs described herein and in the Prospectus.

The Fund will be subject to a 4% excise tax on certain undistributed income if it does not distribute to its shareholders in each calendar year at least 98.2% of its ordinary income (taking into account certain deferrals and elections) for the calendar year plus 98.2% of its net capital gains for twelve months ended October 31 of such year. The Fund intends to declare and distribute dividends and distributions in the amounts and at the times necessary to avoid the application of this 4% excise tax.

As a result of tax requirements, the Trust on behalf of the Fund has the right to reject an order to purchase Shares if the purchaser (or group of purchasers) would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund and if, pursuant to section 351 of the Code, that Fund would have a basis in the Deposit Securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial Share ownership for purposes of the 80% determination.

The Fund may make investments that are subject to special federal income tax rules, such as investments in repurchase agreements, money market instruments, convertible securities and structured notes. Those special tax rules can, among other things, affect the timing of income or gain, the treatment of income as capital or ordinary and the treatment of capital gain or loss as long-term or short-term. The application of these special rules would therefore also affect the character of distributions made by the Fund. The Fund may need to borrow money or dispose of some of its investments earlier than anticipated in order to meet its distribution requirements.

Certain of the Fund's investments may be subject to special U.S. federal income tax provisions that may, among other things, (i) disallow, suspend or otherwise limit the allowance of certain losses or deductions, (ii) convert lower-taxed long-term capital gain into higher-taxed short-term capital gain or ordinary income, (iii) convert an ordinary loss or a deduction into a capital loss, the deductibility of which is more limited, (iv) adversely affect when a purchase or sale of stock or securities is deemed to occur, (v) adversely alter the intended characterization of certain complex financial transactions (vi) cause the Fund to recognize income or gain without a corresponding receipt of cash and (vii) produce non-qualifying income for purposes of the income test required to be satisfied by a RIC. The application of these rules could cause the Fund to be subject to U.S. federal income tax or the nondeductible 4% excise tax and, under certain circumstances, could affect the Fund's status as a RIC. The Fund will monitor its investments and may make certain tax elections in order to mitigate the effect of these provisions.

The Fund may invest in stocks of foreign companies that are classified under the Code as passive foreign investment companies ("PFICs"). In general, a foreign company is classified as a PFIC if at least 50% of its assets constitute investment-type assets or 75% or more of its gross income is investment-type income. In general under the PFIC rules, an "excess distribution" received with respect to PFIC stock is treated as having been realized ratably over the period during which the Fund held the PFIC stock. The Fund itself will be subject to tax on the portion, if any, of the excess distribution that is allocated to the Fund's holding period in prior taxable years (and an interest factor will be added to the tax, as if the tax had actually been payable in such prior taxable years) even though the Fund distributes the corresponding income to shareholders. Excess distributions include any gain from the sale of PFIC stock as well as certain distributions from a PFIC. All excess distributions are taxable as ordinary income.

The Fund may be able to elect alternative tax treatment with respect to PFIC stock. Under an election that currently may be available, the Fund generally would be required to include in its gross income its share of the earnings of a PFIC on a current basis, regardless of whether any distributions are received from the PFIC. If this election is made, the special rules, discussed above, relating to the taxation of excess distributions, would not apply. Alternatively, the Fund may be able to elect to mark to market its PFIC stock, resulting in the stock being treated as sold at fair market value on the last business day of each taxable year. Any resulting gain would be reported as ordinary income, and mark-to-market losses and any loss from an actual disposition of the Fund's shares would be deductible as ordinary losses to the extent of any net mark-to-market gains included in income in prior years.

Because the application of the PFIC rules may affect, among other things, the character of gains, the amount of gain or loss and the timing of the recognition of income with respect to PFIC stock, as well as subject the Fund itself to tax on certain income from PFIC stock, the amount that must be distributed to shareholders, and which will be taxed to shareholders as ordinary income or long-term capital gain, may be increased or decreased substantially as compared to a fund that did not invest in PFIC stock. Note that distributions from a PFIC are not eligible for the reduced rate of tax on “qualified dividends.”

Under Section 988 of the Code, special rules are provided for certain transactions in a foreign currency other than the taxpayer’s functional currency (i.e., unless certain special rules apply, currencies other than the U.S. dollar). In general, foreign currency gains or losses from forward contracts, from futures contracts that are not “regulated futures contracts,” and from unlisted options will be treated as ordinary income or loss under Section 988 of the Code. Also, certain foreign exchange gains or losses derived with respect to foreign fixed income securities are also subject to Section 988 treatment. In general, therefore, Section 988 gains or losses will increase or decrease the amount of the Fund’s investment company taxable income available to be distributed to shareholders as ordinary income, rather than increasing or decreasing the amount of the Fund’s net capital gain.

Income received by the Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax conventions between certain countries and the U.S. may reduce or eliminate such taxes. If more than 50% of the value of the Fund’s total assets at the close of its taxable year consists of stock or securities of foreign corporations, or if at least 50% of the value of the Fund’s total assets at the close of each quarter of its taxable year is represented by interests in other RICs, that Fund may elect to “pass through” to its shareholders the amount of foreign taxes paid or deemed paid by that Fund. If this election is made, a shareholder generally subject to tax will be required to include in gross income (in addition to taxable dividends actually received) its pro rata share of the foreign taxes paid by the Fund, and may be entitled either to deduct (as an itemized deduction) his or her pro rata share of foreign taxes in computing his taxable income or to use it (subject to limitations) as a foreign tax credit against his or her U.S. federal income tax liability. No deduction for foreign taxes may be claimed by a shareholder who does not itemize deductions. Each shareholder will be notified after the close of the Fund’s taxable year whether the foreign taxes paid by the Fund will “pass-through” for that year. Various other limitations, including a minimum holding period requirement, apply to limit the credit and/or deduction for foreign taxes for purposes of regular federal tax and/or alternative minimum tax.

The Fund may gain commodity exposure through investment in exchange traded funds that are treated as RICs or “qualified publicly traded partnerships” or grantor trusts for U.S. federal income tax purposes. An exchange traded fund that seeks to qualify as a RIC may gain commodity exposure through investment in commodity-linked notes and in subsidiaries that invest in commodity-linked instruments. Although the IRS has issued numerous favorable private letter rulings to certain RICs that gain commodity exposure in this manner, such rulings can be relied on only by the taxpayers to whom they are issued. Moreover, the IRS currently is reconsidering whether and how a RIC should be permitted to gain commodity exposure. Future IRS guidance (or possibly legislation or other regulatory guidance) could limit the ability of an exchange traded fund that qualifies as a RIC to gain commodity exposure regardless of whether that exchange traded fund previously received a favorable IRS private letter ruling with respect to such investment activity. Investments by the Fund in “qualified publicly traded partnerships” and grantor trusts that engage in commodity trading must be monitored and limited so as to enable the Fund to satisfy certain asset diversification and qualifying income tests for qualification as a RIC. Failure to satisfy either test would jeopardize the Fund’s status as a RIC. Loss of such status could materially adversely affect the Fund.

In general, for purposes of the Qualifying Income Test described in above, income derived from a partnership will be treated as qualifying income only to the extent such income is attributable to items of income of the partnership that would be qualifying income if realized directly by the Fund. However, 100% of the net income derived from an interest in a qualified publicly traded partnership (generally, a partnership (i) interests in which are traded on an established securities market or are readily tradable on a secondary market or the substantial equivalent thereof, (ii) that derives at least 90% of its income from the passive income sources specified in Code section 7704(d), and (iii) that derives less than 90% of its income from the qualifying income described in (i) of the prior paragraph) will be treated as qualifying income. In addition, although in general the passive loss rules of the Code do not apply to RICs, such rules do apply to a RIC with respect to items attributable to an interest in a qualified publicly traded partnership.

The Fund may invest in certain MLPs which may be treated as qualified publicly traded partnerships. Income from qualified publicly traded partnerships is qualifying income for purposes of the Qualifying Income Test, but the Fund's investment in one or more of such qualified publicly traded partnerships is limited under the Asset Test to no more than 25% of the value of the Fund's assets. The Fund will monitor its investment in such qualified publicly traded partnerships in order to ensure compliance with the Qualifying Income and Asset Tests. MLPs and other partnerships that the Fund may invest in will deliver Form K-1s to the Fund to report its share of income, gains, losses, deductions and credits of the MLP or other partnership. These Form K-1s may be delayed and may not be received until after the time that the Fund issues its tax reporting statements. As a result, the Fund may at times find it necessary to reclassify the amount and character of its distributions to you after it issues your tax reporting statement.

Distributions from the Fund's net investment income, including net short-term capital gains, if any, and distributions of income from securities lending, are taxable as ordinary income. Distributions reinvested in additional Shares of the Fund through the means of a dividend reinvestment service will be taxable dividends to Shareholders acquiring such additional Shares to the same extent as if such dividends had been received in cash. Distributions of net long-term capital gains, if any, in excess of net short-term capital losses are taxable as long-term capital gains, regardless of how long shareholders have held the Shares.

Dividends declared by the Fund in October, November or December and paid to shareholders of record of such months during the following January may be treated as having been received by such shareholders in the year the distributions were declared.

Long-term capital gains tax of non-corporate taxpayers are generally taxed at a maximum rate of either 15% or 20%, depending on whether the taxpayer's income exceeds certain threshold amounts. In addition, some ordinary dividends declared and paid by the Fund to non-corporate shareholders may qualify for taxation at the lower reduced tax rates applicable to long-term capital gains, provided that holding period and other requirements are met by the Fund and the shareholder. The Fund will report to shareholders annually the amounts of dividends received from ordinary income, the amount of distributions received from capital gains and the portion of dividends which may qualify for the dividends received deduction. In addition, the Fund will report the amount of dividends to non-corporate shareholders eligible for taxation at the lower reduced tax rates applicable to long-term capital gains.

An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Fund shares) of U.S. individuals, estates and trusts to the extent that such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross income" (in the case of an estate or trust) exceeds certain threshold amounts.

The sale, exchange or redemption of Shares may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of Shares will be treated as long-term capital gain or loss if the Shares have been held for more than one year. Otherwise, the gain or loss on the taxable disposition of Shares will be treated as short-term capital gain or loss. A loss realized on a sale or exchange of Shares of the Fund may be disallowed if other substantially identical Shares are acquired (whether through the automatic reinvestment of dividends or otherwise) within a sixty-one (61) day period beginning thirty (30) days before and ending thirty (30) days after the date on which the Shares are disposed. In such a case, the basis of the Shares acquired must be adjusted to reflect the disallowed loss. Any loss upon the sale or exchange of Shares held for six (6) months or less is treated as long-term capital loss to the extent of any capital gain dividends received by the shareholders (including undistributed capital gain included in income). Distribution of ordinary income and capital gains may also be subject to state and local taxes.

Legislation passed by Congress requires reporting to you and the IRS annually on Form 1099-B not only the gross proceeds of Fund shares you sell or redeem but also their cost basis. Shareholders should contact their intermediaries with respect to reporting of cost basis and available elections with respect to their accounts.

If, for any calendar year, the total distributions made exceed the Fund's current and accumulated earnings and profits, the excess will, for federal income tax purposes, be treated as a tax free return of capital to each shareholder up to the amount of the shareholder's basis in his or her shares, and thereafter as gain from the sale of shares. The amount treated as a tax free return of capital will reduce the shareholder's adjusted basis in his or her shares, thereby increasing his or her potential gain or reducing his or her potential loss on the subsequent sale of his or her shares.

Distributions of ordinary income paid to shareholders who are nonresident aliens or foreign entities ("Foreign Shareholders") that are not effectively connected to the conduct of a trade or business within the U.S. will generally be subject to a 30% U.S. withholding tax unless a reduced rate of withholding or a withholding exemption is provided under applicable treaty law. However, Foreign Shareholders will generally not be subject to U.S. withholding or income tax on gains realized on the sale of Shares or on dividends from capital gains unless (i) such gain or capital gain dividend is effectively connected with the conduct of a trade or business within the U.S. or (ii) in the case of a non-corporate shareholder, the shareholder is present in the U.S. for a period or periods aggregating 183 days or more during the year of the sale or capital gain dividend and certain other conditions are met. Gains on the sale of Shares and dividends that are effectively connected with the conduct of a trade or business within the U.S. will generally be subject to U.S. federal net income taxation at regular income tax rates. For distributions with respect to taxable years of RICs beginning before January 1, 2015 (if not extended further by Congress), the Fund is not required to withhold any amounts with respect to distributions to foreign shareholders that are properly designated by the Fund as "interest-related dividends" or "short-term capital gain dividends," provided that the income would not be subject to federal income tax if earned directly by the foreign shareholder. However the Fund may withhold tax on these amounts regardless of the fact that it is not required to do so. There can be no assurance as to whether or not legislation will be enacted to extend this exemption. Nonresident shareholders are urged to consult their own tax advisors concerning the applicability of the U.S. withholding tax.

Under the Foreign Investment in Real Property Tax Act of 1980 ("FIRPTA"), a Foreign Shareholder is subject to withholding tax in respect of a disposition of a U.S. real property interest and any gain from such disposition is subject to U.S. federal income tax as if such person were a U.S. person. Such gain is sometimes referred to as "FIRPTA gain." If the Fund is a "U.S. real property holding corporation" and is not domestically controlled, any gain realized on the sale or exchange of Fund shares by a Foreign Shareholder that owns at any time during the five-year period ending on the date of disposition more than 5% of a class of Fund shares would be FIRPTA gain. After December 31, 2014, the same rule will apply to dispositions of Fund shares by Foreign Shareholders but without regard to whether the Fund is domestically controlled. The Fund will be a "U.S. real property holding corporation" if, in general, 50% or more of the fair market value of its assets consists of U.S. real property interests, including stock of certain U.S. REITs.

The Code provides a look-through rule for distributions of FIRPTA gain by a RIC if all of the following requirements are met: (i) the RIC is classified as a “qualified investment entity” (which includes a RIC if, in general more than 50% of the RIC’s assets consists of interest in REITs and U.S. real property holding corporations); and (ii) you are a Foreign Shareholder that owns more than 5% of the Fund’s shares at any time during the one-year period ending on the date of the distribution. If these conditions are met, Fund distributions to you to the extent derived from gain from the disposition of a U.S. real property interest, may also be treated as FIRPTA gain and therefore subject to U.S. federal income tax, and requiring that you file a nonresident U.S. income tax return. Also, such gain may be subject to a 30% branch profits tax in the hands of a Foreign Shareholder that is a corporation. Even if a Foreign Shareholder does not own more than 5% of the Fund’s shares, Fund distributions that are attributable to gain from the sale or disposition of a U.S. real property interest will be taxable as ordinary dividends subject to withholding at a 30% or lower treaty rate.

These rules apply to dividends paid by the Fund before January 1, 2015 (unless such sunset date is extended or made permanent). After such sunset date, Fund distributions from a REIT attributable to gain from the disposition of a U.S. real property interest will continue to be subject to the withholding rules described above provided the Fund would otherwise be classified as a “qualified investment entity”.

As of July 1, 2014, withholding is required (at a 30% rate) with respect to payments of taxable dividends and (effective January 1, 2017) redemption proceeds and certain capital gain dividends made to certain non-U.S. entities that fail to comply (or be deemed compliant) with extensive new reporting and withholding requirements designed to inform the U.S. Department of the Treasury of U.S.-owned foreign investment accounts. Shareholders may be requested to provide additional information to the Fund to enable the applicable withholding agent to determine whether withholding is required.

Non-U.S. Shareholders may also be subject to U.S. estate tax with respect to their shares of the Fund.

Some shareholders may be subject to a withholding tax on distributions of ordinary income, capital gains and any cash received on redemption of Creation Units (“backup withholding”). Generally, shareholders subject to backup withholding will be those for whom no certified taxpayer identification number is on file with the Fund or who, to the Fund’s knowledge, have furnished an incorrect number. When establishing an account, an investor must certify under penalty of perjury that such number is correct and that such investor is not otherwise subject to backup withholding.

The foregoing discussion is a summary only and is not intended as a substitute for careful tax planning. Purchasers of Shares should consult their own tax advisors as to the tax consequences of investing in such Shares, including under federal, state, local and other tax laws. Finally, the foregoing discussion is based on applicable provisions of the Code, regulations, judicial authority and administrative interpretations in effect on the date hereof. Changes in applicable authority could materially affect the conclusions discussed above, possibly retroactively.

### **Federal Tax Treatment of Futures and Options Contracts**

The Fund is required for federal income tax purposes to mark to market and recognize as income for each taxable year its net unrealized gains and losses on certain futures contracts as of the end of the year as well as those actually realized during the year. Gain or loss from futures and options contracts on broad-based indexes required to be marked to market will be 60% long-term and 40% short-term capital gain or loss. Application of this rule may alter the timing and character of distributions to shareholders. The Fund may be required to defer the recognition of losses on futures contracts, options contracts and swaps to the extent of any unrecognized gains on offsetting positions held by the Fund.

In order for the Fund to continue to qualify for federal income tax treatment as a RIC, at least 90% of its gross income for a taxable year must be derived from qualifying income, i.e., dividends, interest, income derived from loans or securities, gains from the sale of securities or of foreign currencies or other income derived with respect to the Fund's business of investing in securities (including net income derived from an interest in certain "qualified publicly traded partnerships"). It is anticipated that any net gain realized from the closing out of futures or options contracts will be considered gain from the sale of securities or derived with respect to the Fund's business of investing in securities and therefore will be qualifying income for purposes of the 90% gross income requirement.

The Fund distributes to shareholders at least annually any net capital gains which have been recognized for federal income tax purposes, including unrealized gains at the end of the Fund's fiscal year on futures or options transactions. Such distributions are combined with distributions of capital gains realized on the Fund's other investments and shareholders are advised on the nature of the distributions.

#### **FINANCIAL STATEMENTS**

The Fund's audited financial statements, when available, will be incorporated by reference into this SAI.

### Proxy Voting Policies and Procedures for the Trust

#### CAMBRIA INVESTMENT MANAGEMENT, L.P.

### Proxy Voting Policies and Procedures

#### Introduction

Cambria Investment Management, LP (“Cambria”) is a registered investment adviser with the U.S. Securities and Exchange Commission (“SEC”) pursuant to the Investment Advisers Act of 1940, as amended, (the “Advisers Act”). Cambria provides investment advisory services to various types of clients such as registered funds, unregistered private funds and separate accounts. Pursuant to the terms of an investment management agreement between Cambria and its client or as a result of some other type of specific delegation by the client, Cambria is often given the authority and discretion to vote proxy statements relating to the underlying securities which are held on behalf of such client. Cambria has developed the following Proxy Voting Policies and Procedures (the “Procedures”) in order to ensure that Cambria votes proxies or gives proxy voting advice that is in the best interests of its clients.

#### Procedures for Voting Proxies

To help make sure that Cambria votes client proxies in accordance with the Procedures and in the best interests of clients, Cambria has established a Management Committee (the “Committee”), which is responsible for overseeing the Cambria’s proxy voting process.

The person(s) representing the Committee may change from time to time. The Committee will meet as necessary to help Cambria fulfill its duties to vote proxies for clients, but in any event, will meet at least quarterly to discuss various proxy voting issues.

One of the main responsibilities of the Committee is to review and approve the Procedures on a yearly basis. When reviewing the Procedures, the Committee looks to see if the Procedures are designed to allow Cambria to vote proxies in a manner consistent with the goals of voting in the best interests of clients and maximizing the value of the underlying shares being voted on by Cambria. The Committee will also review the Procedures to make sure that they comply with any new rules promulgated by the SEC or other relevant regulatory bodies. After the Procedures are approved by the Committee, Cambria will vote proxies generally in accordance with such Procedures, although in certain cases, the CEO or designee may direct a particular proxy to be voted contrary to the Procedures if the CEO or designee believes that such a vote would better serve the client’s best interests.

In order to facilitate the actual process of voting proxies, Cambria has contracted with Egan-Jones Proxy Services (“Egan-Jones”). Both Egan-Jones and the client’s custodian monitor corporate events for Cambria. Cambria gives an authorization and letter of instruction to the client’s custodian who then forwards proxy materials it receives to Egan-Jones so that Egan-Jones may vote the proxies.

After receiving the proxy statements, Egan-Jones will review the proxy issues and vote them in accordance with Cambria’s Procedures. When the Procedures state that a proxy issue will be decided on a case-by-case basis, Egan-Jones will look at the relevant facts and circumstances and research the issue to determine how the proxy should be voted, so that the proxy is voted in the best interests of the client and in accordance with the parameters described in these Procedures generally and specifically with the Egan-Jones Proxy Services Proxy Voting Principles and Guidelines (the “Guidelines”). If the Procedures do not address a particular proxy issue, Egan-Jones will similarly look at the relevant facts and circumstances and research the issue to determine how the proxy should be voted, so that the proxy is voted in the best interests of the client and pursuant to the spirit of the Procedures. After a proxy has been voted, Egan-Jones will create a record of the vote in order to help Cambria’s comply with their duties listed under “Availability of Proxy Voting Records and Recordkeeping” below. If a client provides Cambria with its own recommendations on a given proxy vote, Cambria will forward the client’s recommendation to Egan-Jones who will vote the client’s proxy pursuant to the client’s recommendation.

The Committee is responsible for overseeing Egan-Jones's proxy voting activities for Cambria's clients and will attempt to ensure that Egan-Jones is voting proxies pursuant to the Procedures. As part of the Committee's oversight of Egan-Jones, the Committee will periodically review Egan-Jones's conflict of interest procedures and any other pertinent procedures or representations from Egan-Jones in an attempt to ensure that Egan-Jones will make recommendations for voting proxies in an impartial manner and in the best interests of Cambria's clients. There may be times when Cambria believes that the best interests of the client will be better served if Cambria votes a proxy counter to Egan-Jones's recommended vote on that proxy. In those cases, the Committee will generally review the research provided by Egan-Jones on the particular issue, and it may also conduct its own research or solicit additional research from another third party on the issue. After gathering this information and possibly discussing the issue with other relevant parties, the Committee will use the information gathered to determine how to vote on the issue in a manner which the Committee believes is consistent with Cambria's Procedures and in the best interests of the client.

With the exception of proxies from non-U.S. issuers, Cambria will attempt to vote every proxy which it or its agents receive when a client has given Cambria the authority and direction to vote such proxies. However, there are situations in which Cambria may not be able to process a proxy. For example, Cambria may not have sufficient time to process a vote because Cambria or its agents received a proxy statement in an untimely manner, or Cambria may in certain situations be unable to vote a proxy in relation to a security that is on loan pursuant to a securities lending program. Use of a third party service, such as Egan-Jones, and relationships with multiple custodians can help mitigate a situation where Cambria is unable to vote a proxy.

### **International Proxy Voting**

There are significant differences between voting U.S. company proxies and voting non-U.S. company proxies. For U.S. companies, it is relatively easy to vote proxies, as the proxies are automatically received and may be voted by mail or electronically. In most cases, the officers of a U.S. company soliciting a proxy act as proxies for the company's shareholders. For proxies of non-U.S. companies, however, it is typically both difficult and costly to vote proxies. The major difficulties and costs may include: (i) appointing a proxy; (ii) knowing when a meeting is taking place; (iii) obtaining relevant information about proxies, voting procedures for foreign shareholders, and restrictions on trading securities that are subject to proxy votes; (iv) arranging for proxy to vote; and (v) evaluation the cost of voting. Further, these difficulties and costs will vary by country. As a result, Cambria will generally abstain from voting on all non-U.S. company proxies. Nonetheless, when Cambria becomes aware of an issue to be voted on regarding a non-U.S. company that is likely to impact the economic value of the underlying securities, that its vote may influence the outcome, and that the benefits of voting exceed the expected costs, Cambria will make a reasonable effort to vote such proxies in a manner consistent with Cambria's Procedures.

## **Company Management Recommendations**

When determining whether to invest in a particular company, one of the factors Cambria may consider is the quality and depth of the company's management. As a result, Cambria believes that recommendations of management on any issue (particularly routine issues) should be given a fair amount of weight in determining how proxy issues should be voted. Thus, on many issues, Cambria's votes are cast in accordance with the recommendations of the company's management. However, Cambria will normally vote against management's position when it runs counter to the Guidelines, and Cambria will also vote against management's recommendation when such position is not in the best interests of Cambria's clients.

## **Conflicts of Interest**

As a matter of policy, the Committee and any other officers, directors, employees and affiliated persons of Cambria may not be influenced by outside sources who have interests which conflict with the interests of Cambria's clients when voting proxies for such clients. However, in order to ensure that Cambria votes proxies in the best interests of the client, Cambria has established various systems described below to properly deal with a material conflict of interest.

Most of the proxies which Cambria receives on behalf of its clients are voted by Egan-Jones in accordance with these pre-determined, pre-approved Procedures. As stated above, these Procedures are reviewed and approved by the Committee at least annually normally during the first quarter of the calendar year and at other necessary times. The Procedures are then utilized by Egan-Jones going forward to vote client proxies. The Committee approves the Procedures only after it has determined that the Procedures are designed to help Cambria vote proxies in a manner consistent with the goal of voting in the best interests of its clients. Because the majority of client proxies are voted by Egan-Jones pursuant to the pre-determined Procedures, it normally will not be necessary for Cambria to make a real-time determination of how to vote a particular proxy, thereby largely eliminating conflicts of interest for Cambria from the proxy voting process.

In the limited instances where Cambria is considering voting a proxy contrary to Egan-Jones's recommendation, the Committee will first assess the issue to see if there is any possible conflict of interest involving Cambria or affiliated persons of Cambria. If there is no perceived conflict of interest, the Committee will then vote the proxy according to the process described in "Procedures for Voting Proxies" above. If at least one member of the Committee has actual knowledge of a conflict of interest, the Committee will normally use another independent third party to do additional research on the particular issue in order to make a recommendation to the Committee on how to vote the proxy in the best interests of the client. The Committee will then review the proxy voting materials and recommendation provided by Egan-Jones and the independent third party to determine how to vote the issue in a manner which the Committee believes is consistent with Cambria's Procedures and in the best interests of the client. In these instances, the Committee must come to a unanimous decision regarding how to vote the proxy or they will be required to vote the proxy in accordance with Egan-Jones's original recommendation. Documentation of the reasons for voting contrary to Egan-Jones's recommendation will generally be retained by Cambria.

## **Availability of Proxy Voting Information and Record Keeping**

Clients of Cambria will be directed to the CCO or designee to obtain information from Cambria on how their securities were voted. At the beginning of a new relationship with a client, Cambria will provide clients with a concise summary of Cambria's proxy voting process and will inform clients that they can obtain a copy of the complete Procedures upon request. The information described in the preceding two sentences will be included in Part 2 of Cambria's Form ADV which is delivered to each new client prior to the commencement of investment management services. Existing clients will also be provided with the above information.

Cambria will also retain extensive records regarding proxy voting on behalf of clients. Cambria will keep records of the following items: (i) the Procedures; (ii) proxy statements received regarding client securities (via hard copies held by Egan-Jones or electronic filings from the SEC's EDGAR filing system); (iii) records of votes cast on behalf of Cambria's clients (via Egan-Jones); (iv) records of a client's written request for information on how Cambria voted proxies for the client, and any Cambria written response to an oral or written client request for information on how Cambria voted proxies for the client; and (v) any documents prepared by Cambria that were material to making a decision how to vote or that memorialized the basis for that decision. These records will be maintained in an easily accessible place for at least five years from the end of the fiscal year during which the last entry was made on such record. For the first two years, such records will be stored at the offices of Cambria.

### **Proxy Voting Guidelines**

The Guidelines summarize Cambria's position on various issues and give a general indication as to how Cambria will vote shares on each issue. The Management Committee has reviewed the Guidelines and determined that voting proxies pursuant to the Guidelines should be in the best interests of the client and should facilitate the goal of maximizing the value of the client's investments. Although Cambria will usually vote proxies in accordance with these Guidelines, Cambria reserves the right to vote certain issues counter to the Guidelines if, after a thorough review of the matter, Cambria determines that a client's best interests would be served by such a vote. Moreover, the list of Guidelines may not include all potential voting issues. To the extent that the Guidelines do not cover potential voting issues, Cambria will vote on such issues in a manner that is consistent with the spirit of the Guidelines below and that promotes the best interests of the client.

Cambria generally considers that clients' best interests are served by the promotion of high levels of corporate governance and adequate disclosure of company policies and practices. The Guidelines are available upon request to the CCO or CEO or designee.

## **Appendix B**

### **Foreign Holidays**

The Fund generally intends to effect deliveries of Creation Units and portfolio securities no later than the third Business Day following the day on which the order is deemed received by the Distributor. The Fund may effect deliveries of Creation Units and portfolio securities on a basis other than the one just described in order to accommodate local holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates, or under certain other circumstances. The ability of the Trust to effect in-kind creations and redemptions within three business days of receipt of an order in good form is subject, among other things, to the condition that, within the time period from the date of the order to the date of delivery of the securities, there are no days that are holidays in the applicable foreign market. For every occurrence of one or more intervening holidays in the applicable foreign market that are not holidays observed in the U.S. equity market, the redemption settlement cycle will be extended by the number of such intervening holidays. In addition to holidays, other unforeseeable closings in a foreign market due to emergencies may also prevent the Trust from delivering securities within the normal settlement period.

The securities delivery cycles currently practicable for transferring portfolio securities to redeeming investors, coupled with foreign market holiday schedules, will require a delivery process longer than seven calendar days in certain circumstances.

The holidays applicable to the Fund if it invests in such foreign securities during such periods are listed below, as are instances where more than seven days will be needed to deliver redemption proceeds. Although certain holidays may occur on different dates in subsequent years, the number of days required to deliver redemption proceeds in any given year is not expected to exceed the maximum number of days listed below for the Fund. The proclamation of new holidays, the treatment by market participants of certain days as “informal holidays” (e.g., days on which no or limited securities transactions occur, as a result of substantially shortened trading hours), the elimination of existing holidays, or changes in local securities delivery practices, could affect the information set forth herein at some time in the future.

#### **2017**

The dates of the Regular Holidays in calendar year 2017 are as follows (please note these holiday schedules are subject to potential changes in the relevant securities markets):

#### **Argentina**

January 1	April 13	June 2	November 27
February 28	April 14	August 21	December 8
March 1	May 1	October 9	December 25
March 24	May 25	November 6	

#### **Australia**

January 2	April 17	December 22	December 29
January 26	April 25	December 25	
April 14	June 12	December 26	

#### **Austria**

January 6	May 25	October 26	December 31
April 14	June 5	November 1	
April 17	June 15	December 8	
May 1	August 15	December 26	

#### **Belgium**

April 14	May 1	December 25	December 26
April 17			

#### **Brazil**

January 25	April 14	September 7	November 20

**Lithuania**

February 16	May 1	August 15	December 26
April 14	May 25	November 1	
April 17	July 6	December 25	

**Luxembourg**

April 14	May 25	August 15	December 26
April 17	June 5	November 1	
May 1	June 23	December 25	

**Malaysia**

January 1	February 9	June 26	October 18
January 2	May 1	June 27	December 1
January 28	May 10	August 31	December 25
January 29	June 3	September 1	
January 30	June 12	September 16	
February 1	June 25	September 21	

**Mexico**

February 6	April 14	November 20	
March 20	May 1	December 12	
April 13	November 2	December 25	

**The Netherlands**

April 14	May 1	December 25	December 26
April 17			

**New Zealand**

January 2	January 30	April 17	October 23
January 3	February 6	April 25	December 25
January 23	April 14	June 5	December 26

**Norway**

April 12	April 17	May 17	June 5
April 13	May 1	May 25	December 25
April 14			

**Peru**

April 13	June 29	August 30	December 8
April 14	July 28	November 1	December 25
May 1			

**Philippines**

January 1	April 14	August 21	November 30
January 28	April 15	August 28	December 25
February 25	May 1	September 1	December 30
April 9	June 12	October 31	December 31
April 13	June 27	November 1	

**Poland**

January 6	May 1	August 15	December 26
April 14	May 3	November 1	December 29
April 17	June 15	December 25	

**Portugal**

April 14	May 1	December 8	
April 17	August 15	December 25	
April 25	November 1	December 26	

**Romania**

January 1	April 17	June 5	December 25
January 2	May 1	August 15	December 26
January 24	June 1	November 30	
April 16	June 4	December 1	

**Russia**

January 2	January 6	May 1	June 12
January 3	February 23	May 8	November 6
January 4	February 24	May 9	
January 5	March 8		

**Saudi Arabia**

June 26	June 30	September 3	September 23
June 27	September 1	September 4	
June 28	September 2	September 5	
June 29			

\* The Saudi market is closed every Friday.

**Singapore**

January 1	January 30	June 25	October 18
January 2	April 14	June 26	December 25
January 28	May 1	August 9	
January 29	May 10	September 1	

**South Africa**

January 1	April 17	August 9	December 25
January 2	April 27	September 24	December 26
March 21	May 1	September 25	
April 14	June 16	December 16	

**South Korea**

January 1	March 1	August 15	October 9
January 27	May 1	October 3	December 20
January 28	May 3	October 4	December 25
January 29	May 5	October 5	December 29
January 30	June 6	October 6	

**Spain**

January 2	April 17	August 15	December 26
April 14	May 1	December 25	

**Sweden**

January 5	April 17	June 6	December 26
January 6	May 1	June 23	
April 13	May 24	November 3	
April 14	May 25	December 25	

**Switzerland**

January 2	May 1	August 1	
April 14	May 25	December 25	
April 17	June 5	December 26	

**Taiwan**

January 2	January 31	April 3	June 3
January 25	February 1	April 4	September 30
January 26	February 18	May 1	October 4
January 27	February 27	May 29	October 9
January 30	February 28	May 30	October 10

**Thailand**

January 2	April 14	July 10	December 11
February 13	May 1	August 14	
April 6	May 5	October 23	
April 13	May 10	December 5	

**Turkey**

May 1	June 27	August 31	
May 19	June 28	September 1	
June 26	August 30	September 4	

**The United Kingdom**

January 2	May 1	December 22	December 29
April 14	May 29	December 25	
April 17	August 28	December 26	

**Redemptions:** The longest redemption cycle for the Funds is a function of the longest redemption cycle among the countries whose stocks are held by a Fund. These worst-case redemption cycles are based on information regarding regular holidays, which may be out of date. Based on changes in holidays, longer (worse) redemption cycles are possible.

In calendar year 2017, the dates of regular holidays affecting the following securities markets present the worst-case redemption cycle for the Funds as follows:

Country	Trade Date	Settlement Date	Number of Days to Settle
Australia	04/11/17	04/19/17	8
	04/12/17	04/20/17	8
	04/13/17	04/21/17	8
China	01/24/17	02/03/17	10
	01/25/17	02/06/17	12
	01/26/17	02/07/17	12
	09/27/17	10/09/17	12
	09/28/17	10/10/17	12
Indonesia	06/20/17	06/29/17	9
	06/21/17	07/03/17	12
	06/22/17	07/04/17	12
Israel	04/06/17	04/18/17	12
	04/09/17	04/19/17	10
	10/02/17	10/15/17	13
Japan	10/03/17	10/16/17	13
	04/28/17	05/08/17	10
	05/01/17	05/09/17	8
Norway	05/02/17	05/10/17	8
	04/10/17	04/18/17	8
South Korea	04/11/17	04/19/17	8
	10/02/17	10/10/17	8
Taiwan	01/23/17	02/02/17	10
	01/24/17	02/03/17	10
Turkey	08/28/17	09/05/17	8
	08/29/17	09/06/17	8
